VINVAC
Wine Vacuum Stopper

WWW.TRNDLABS.COM

**Thank you for purchasing the
VINVAC Wine Vacuum Stopper and welcome
to the world of TRNDlabs products.**

The VINVAC automatically vacuums your wine bottle, sealing it tightly so that it will stay fresh for up to a week. That means you can enjoy a glass or two now, and savor the rest later. Plus, it preserves all the aromas and flavors of your wine, so you'll enjoy it just as much as the day you opened it.

Functions

Battery Compartment

How to Use

- Place the VINVAC onto the wine bottle opening, making sure it fits snugly.
- When placed on the wine bottle, it will start working automatically.
- The indicator lights will turn blue, indicating it is pumping out the air.
- It will stop working automatically when the process is finished, and the indicator lights will turn off.
- When you want to use the wine again, simply pull the VINVAC off the bottle like a cork.

Specifications

Batteries: 2 x AAA

Dimensions: 7.1 x 7.1 x 4.8 cm (2.8 x 2.8 x 1.9 inches)

Weight: 110 grams (3.9 ounces)

Troubleshooting

Problem:

The VINVAC does not start working automatically when placed on a wine bottle.

Solution:

- The batteries are empty. Replace the batteries with new ones or recharge them.
- The wine bottle is in a tilted position. Keep the wine bottle straight up when the VINVAC is working.

Problem:

The VINVAC turns on, but does not pump the air out of the bottle and does not stuck.

Solution:

- The bottle that it is being used on is not a standard wine bottle. Note that the VINVAC can be used on wine bottles only.

Safety information

- Do not tilt the bottle during the process of pumping the air out of the bottle. The device will stop automatically, because wine will pour in the device.
- The device is intended for use with wine bottles only. Do not attempt to use it with other types of bottles or containers.
- Keep the device out of reach of children.
- Do not clean the device in the dishwasher. Clean it with warm, soapy water and allow it to air dry.
- Do not expose the device to extreme temperatures, as this may cause damage to the materials.
