SPARK Bluetooth Speaker

USB Charging Cable

Functions

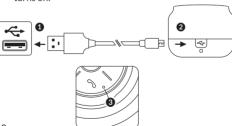

Functions

Set Up and Charging

- 1 Connect the USB Charging Cable to a USB port.
- 2 Now connect the Micro USB plug of the USB Charging Cable to the Micro USB port of your SPARK.
- The red LED light indicates that SPARK is charging. When the battery is fully charged, the indicator light turns off.

Pairing

When turned on, the SPARK will enter pairing mode automatically. When in pairing mode the indicator light flashes blue quickly.

The SPARK will now show up in the Bluetooth device overview of your mobile device. Select the SPARK to connect it. The indicator light will turn solid blue when the connection is established.

Dimensions: $7.9 \times 7.9 \times 6.2 \text{ cm} (3.1 \times 3.1 \times 2.4^{\circ})$

Weight: 40 grams (1.41 ounces)

Troubleshooting

Problem:

SPARK is not showing up in the Bluetooth device overview or it fails to connect.

Solution:

- It is connected to another Bluetooth device. Disconnect the SPARK with this device and it will be ready to pair.
- There are too may Bluetooth devices turned on, causing interference. Turn off Bluetooth on any excess devices.

Problem:

Music stops playing or sound is distorted.

Solution:

- The maximum Bluetooth transmission range might be exceeded or there might be an obstacle between SPARK and your Bluetooth device.
- Battery power is insufficient, please charge the battery.

Safety information

- Do not expose the speaker to extreme temperatures or moisture
- Do not attempt to repair or disassemble the speaker.
- Use only the provided charging cable to charge the speaker.
- Disconnect the USB connector from the speaker once fully charged.
- Do not place the speaker on flammable materials, such as bedding or carpets during charging.
- Keep the speaker away from children and pets.
