

Amii and Tyy

Want you try your hand at some picture math problems!
Can you solve them?

$$\begin{array}{ccccccccc} \triangle & + & \triangle & + & \triangle & = & 9 \\ \smiley & + & \smiley & + & \triangle & = & 5 \\ \triangle & + & \smiley & + & \triangle & = & _ \end{array}$$

Each shape represents a number. You have this!

This one is a little harder. You can do it!

$$\begin{array}{ccccccccc} \text{lightning} & + & \text{lightning} & - & \text{cloud} & = & 8 \\ \text{lightning} & - & \text{moon} & + & \text{cloud} & = & 4 \\ \text{moon} & + & \text{lightning} & + & \text{cloud} & = & _ \end{array}$$

See sample sentences on page 2

How Did You Do??

$3 + 3 + 3 = 9$

$1 + 1 + 3 = 5$

$3 + 1 + 3 = \underline{7}$

Math is Fun!

You Can Count On Math

$5 + 5 - 2 = 8$

$5 - 3 + 2 = 4$

$3 + 5 + 2 = \underline{10}$
