Snapz

Bluetooth Remote Shutter Instructions

HOW TO USE

1. Pairing

- Switch on the Snapz Bluetooth Remote Shutter and it will enter pairing mode automatically (LED blinking).
- Use the cell phone to search devices by Bluetooth.
- Select and pair the device of 'AB Shutter6'.

2. Shooting

- Use the inbuilt camera or install 'Camera360' to take the photos.
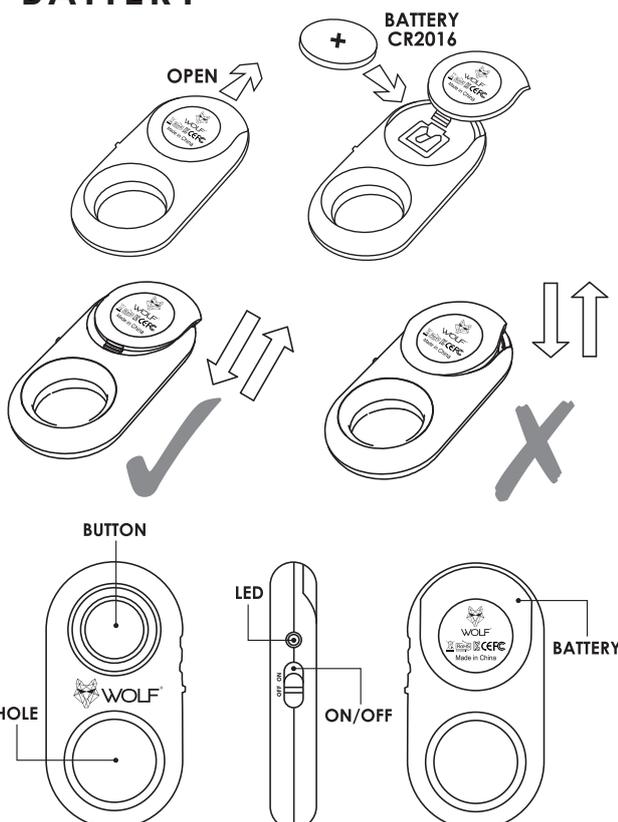

3. Instruction

- The LED flashing means the Shutter6 is in pairing mode.
- Check the compatible devices list to select the appropriate APP.
- Key word search in Googleplay or App Store for 'Camera360'.
