ABOUT US

Master Group of Industries was established in 1963, with a modern and realistic approach towards growth through innovative technology and quality manufacturing. A company with determination and vigor aimed towards diversifying the working area that consists of Foam, Textile and Engineering.

Our product philosophy has always leaned towards manufacturing improved products, researching new applications and developing production techniques. Our mission is to blend corporate objectives, business ethics and manufacturing excellence to maintain and expand on this leadership.

Utilizing the ingenuity in foam, automotive engineering and textile, Master has epitomized their expert technology in Master Office Chairs.

Master Chair Series is designed to take best advantage of human body mechanics by positioning the body to allow normal spinal posture while working and therefore allowing it to function best. Emerging as a perfect seating system, Master OffiSys comprises of a series of chairs with uniqueness of style and comfort to offer diversified benefits.

Functional and hi-chic office furniture accompanied by best cable management provisions creates an ideal working environment to keep operational force motivated and live.

Master OffiSys Private Limited is manufacturing high quality orthopedic office chairs and iconic Office furniture. It has a chief interest in dealing with firms and organizations where computer related work and long sitting working hours are vital.
