**Making Life's
Experiences Possible**

Comet Pro

Large 13" front and rear wheels, combined with a superior suspension system, allows the safe negotiation of kerbs and obstacles in a smooth and comfortable manner. Additionally, the automatic speed reduction will slow you down when driving around corners at high speed for additional stability and safety.

Advanced safety features, such as a two step disengaging lever and automatic speed reduction, offers additional peace of mind wherever you go.

The Comet Pro offers exceptional manoeuvrability and control, even through tight and challenging spaces. Additionally, the ergonomic steering ensures an optimal driving position, allowing for a more enjoyable and relaxing journey.

Features

Advanced suspension for a smooth and comfortable drive over rugged terrain.

Easy drive direction stability keeps you in a straight line at high speeds for additional safety and stability.

Two step disengaging lever prevents the scooter from accidentally free-wheeling.

Automatic speed reduction reduces speed around bends for added safety.
