## WHAT IS THE IMPERIAL MKII?

Welcome aficionados of all things fuzzy! We are excited to present you with our retro themed, extra special Imperial MKII Fuzz. Inspired by one of our all-time favorites, the JEN Jumbo Fuzz, the Imperial MKII is a gated Muff style fuzz made with SGFX flair.

Built around our J-FET preamp, the Imperial MKII offers exceptional clarity and response for your guitar, bass or synth application. While the Fuzz slider delivers as much or as little gain as you may need, the Tone slider along with its midrange Contour slider cousin deliver warm and wooly or bright and cutting sounds.

Paired with a dynamic noise gate, this sweet little fuzz monster offers a crisp attack with virtually no noise floor.

With that said, go ahead - plug in, crank it up and let loose! We want you to have fun and enjoy!

## WHAT DOES THIS DO?

**Vol:** Allows you to boost or cut your volume level.

**Tone:** Allows you to set darker tones as you lower the slider or brighter tones as you raise it.

**Contour:** This controls the midrange content of the tone stack by changing the frequency of the high pass filter. The effect of the contour slider becomes more apparent when the Tone is set to brighter positions. Raising the Contour slider increases mids while lowering the slider scoops mids.

**Fuzz:** Allows you to increase or decrease the amount of distortion.

**True Bypass Switch:** Allows you to engage or bypass the effect.

**LEDs:** The Left LED indicates the bypass status while the Right LED indicates the gate status. Both are active when LEDs are on.

**9V DC Input:** This pedal uses a negative ground, 9V DC power supply with a 2.1mm barrel plug and negative center.

**IMPORTANT: USE OF AN IMPROPER POWER SUPPLY WILL VOID WARRANTY**

## WARRANTY INFORMATION

All SolidGoldFX products purchased through the solidgoldfx.com website or our authorized dealers come with a three-year warranty against failure resulting from defective parts and/or faulty workmanship. Cosmetic flaws or issues related to wear and tear are not covered.

The warranty applies only to the original owner of the product and is not transferable. Warranty coverage terminates three years after the owner receives the product. While a product is under warranty, the product will be repaired free of charge. The owner of the product will be responsible for both shipping to and from SolidGoldFX. Warranty coverage will be automatically cancelled should the product be tampered with, modified, abused, damaged through misuse, repaired by an unauthorized third party, or damaged through failure to follow the operating instructions. Use of an improper power supply will void warranty.
