

WELCOME TO OUR GARDEN

Everything we make has an impact on the planet. We at Mossop Leather are making change through our LEATHERPRINT® initiative. Our LEATHERPRINT® is our ongoing commitment to implementing a conscientiousness centered around the environment, society and economic activity.

We have created a physical manifesto of our LEATHERPRINT®, reflecting our journey towards greater sustainable practices. The three circles in the Garden represent our SOCIAL, ECONOMIC and ENVIRONMENTAL initiatives that impact sustainability in a positive manner.

YOU ARE HERE

Take in this vantage point and tune into your senses. Listen to the buzz. Smell fragrances. Listen to sounds. Feel the hum of some not too distant drums.

THE PATH

You need to follow it, but its significance lies in linking the three circles of LEATHERPRINT®, indicating the flow between the goals of each circle.
