

Ring Size Guide

Before measuring your ring size, be sure this guide is printed in US Letter size and scaled to 100%. Please avoid 'zooming in' or 'upscaling', simply select '100%' and/or 'Actual Size' in your PDF print window. You can check the accuracy of your print by positioning a credit card on the line below. If the card lines up, then the guide is ready to use.

Option 1: The Peora 'O Ring' Ruler

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit.

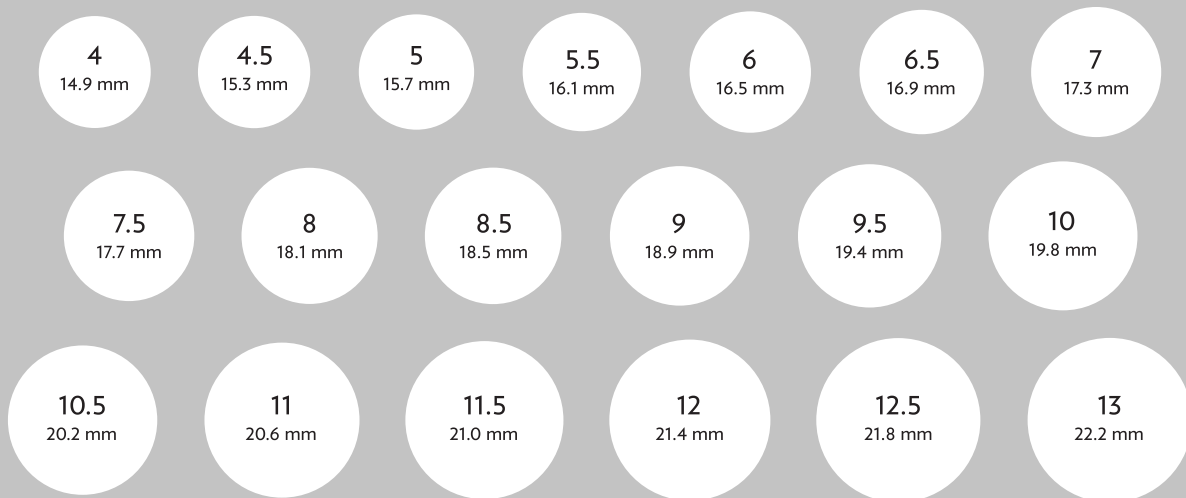

We recommend selecting a size that goes on and off your finger with ease.

Ring size may vary slightly depending on style of the ring.

Option 2: Match Your Ring

To find your **ring size**, use an existing ring that fits you well. Match the inside of that ring with one of the circles below. When your ring has been placed on the right size, you should see only the white circle (with no grey space) inside your ring. If your ideal fit falls between two sizes, we recommend choosing the larger size.
