- Farming and gardening
- General material handling and maintenance
- Light & precision assembly
- Loading trucks and vehicles
- Shipping and receiving, handling cartons and packaging
- Small-scale metal stamping and assembly
- Steel and metal bar, wood handling
- Waste handling

- MADE FROM THE HIGHEST QUALITY OF MATERIAL**
 Made up of high-quality, thin, flexible materials that are reinforced with synthetic leather at each fingertip and palm. Inserts are double-stitched and seams are two times stronger than average seams.
- COMFORTABLE & LIGHTWEIGHT**
 A breathable and comfortable glove that offers great ventilation. The thumb has terry cloth on it to wipe your sweat away. Composed of lightweight, breathable mesh fabrics.
- STRONG GRIP AND PROTECTION**
 Palm inserts offer a safe grip without compromising the tactile feel, making it easy to hold onto things. The neoprene layer on the knuckles also protects from light impacts and abrasion.
- MULTI-PURPOSE AND TOUCHSCREEN CAPABLE**
 A favorite among mechanics for car repair, but it's also useful for various applications. Designed to give you access to your touchscreen devices.
