- Plastics
- Public Utilities
- Transport
- Warehousing

Applications

- Eye Protection

- **ANTIFOG, SCRATCH PROOF and UV BLOCKING.**
SG220 wide-vision goggles were treated with a hard coat to prevent fogging and scratches. They are designed to fit over your prescription eyewear and specs.
- **TOUGH PPE GEAR**
Made with lightweight Polycarbonate lens and TPR frame, these goggles create a full seal around the eyes and shield all sides from dust, splashes, sawdust, liquids, and debris.
- **IMPACT PROTECTION**
Goggles meet the CE EN 166 and ANSI/ISEA Z87.1 standards for impact protection and are OSHA approved.
- **SOFT TPR GASKET**
Thermoplastic Rubber conforms to the face without exerting pressure, comfortably securing the eye area even in moisture conditions. The adjustable head belt allows for a snug and personalized fit, ensuring that the goggles stay in place during use.
