Applications

- Eye Protection

■ ANTIFOG, SCRATCH PROOF and UV BLOCKING

SG220A and SG220B wide-vision goggles were treated with a hard coat to prevent fogging and scratches. They are designed to fit over your prescription eyewear and specs.

■ TOUGH PPE GEAR

Made with Polycarbonate lens and ventilated PVC frame, they create a full seal around the eyes, shielding them from dust, splashes, sawdust, liquids, and debris. Ventilation channels prevent goggles from steaming up.

■ IMPACT PROTECTION

Goggles meet the CE EN 166 and ANSI/ISEA Z87.1 standards for impact protection and are OSHA approved.

■ SOFT PVC GASKET

Seal conforms to the face without exerting pressure, comfortably securing the eye area even in moisture conditions. The adjustable head belt allows for a snug and personalized fit, ensuring that the goggles stay in place during use.
