

Mantis Desk by Samuel Wilkinson

## Mantis Desk by Samuel Wilkinson

British designer Samuel Wilkinson's idea was to create a desk that would work excellently in a compact home environment with a clean elegant aesthetic.

The flexible design comes with attachable accessories that help to keep your environment neat and tidy. The solid wood top has a removable plate that allows easy access to a storage tray hiding unsightly plugs and cables.

Other accessories include a small draw for a laptop or papers, a file holder and a back panel that can act as a note board or in an open space as a privacy screen. The table's four steel legs are also detachable, making the entire workplace easy to store or transport. The design lends itself to a home office or is ideal in tandem, back to back.

Made in Lithuania.
