

Sip Plant Pot by Ann Kristin Einarsen

## Sip Plant Pot by Ann Kristin Einarsen

Sip is a two part self watering plant pot which plays with the shape of the classic terracotta form.

Minimally constructed, a nylon wick works as an extension of the plant roots and draws water from the reservoir which enables the plant to draw up just the water it needs .

The Sip Plant Pot makes it easy to keep plants fresh without spending too much time looking after them .  
A cleverly shaped glazed tray holds water and allows for easy watering.

Made in Portugal.

### Key Features
