SYSTEMS LEADER COHORT

At this year’s Bridge Conference, come join other systems leaders, including funders, policymakers and community leaders, as we focus on advancing equity through a well-supported expanded learning system in this profound moment of change. This carefully curated series of workshops will elevate frameworks, ideas, and voices that will prepare and challenge us to seize this moment to create more equitable and high quality expanded learning opportunities (ELO’s) for youth.

With the expertise of national and local leaders, our goal is to engage systems leaders to find innovative ways to fund and build more equitable systems that support young people to thrive in and out of school. This means showing up as leaders in authentic and responsive ways. It also means re-imagining ways of operating, building or re-building systems to intentionally and thoughtfully put equity at the center, and modeling equitable practices.

If you are:
A systems-thinker, local, state or regional leader, funder, or policymaker and you would like to explore new ways to strengthen our current systems to support expanded learning opportunities for youth, join us!

REGISTER NOW and select this specially curated series. When completing your registration, if you plan to participate in this System Leaders Cohort experience, please mark “Yes” to the following question: “System Leaders Cohort: I would like to register for the full workshop series for funders, policymakers, and community leaders. This cohort will focus on advancing equity through a well-supported expanded learning system in this profound moment of change.”

This year’s virtual Bridge Conference will take place from Tuesday, October 27th – Friday, October 30th. When you join the System Leader Cohort, you will experience:

- Dynamic speakers
- Interactive and engaging workshops with local and national leaders sharing critical strategies and ideas, with workshops on the first and final days of Bridge designed for a collective and connected learning experience just for system leaders, and two workshop periods where you can choose between multiple sessions
- Storytelling hour
- Intentional community building sessions for systems leaders to discuss the most relevant and pressing issues in these times
- Access to recorded sessions for a limited time after Bridge concludes, for continued learning
If you have any questions about the System Leaders Cohort experience, and how it differs from the rest of the Conference, please email us at bridge@schoolsoutwashington.org.
