

Dermastir Gold Radiance Gel - 35ml

Dermastir Gold Cellular Radiance Gel is a unique anti-aging product in gel form. Dermastir Gold Cellular Radiance Gel combines all positive characteristics of gel form having non-greasy light texture.

At the same time, it contains unique blend of nourishing rejuvenating active ingredients with long-lasting release on the skin surface.

Dermastir Cellular Gold Radiance Gel, with its gold-infused formula, protects the skin from the external damage, while revitalizing, stimulating and giving it a flawless radiant finish.

DERMASTIR®

Dermastir Gold Radiance Gel

The precious ingredients contained in Dermastir Gold Cellular Radiance Gel remain active and efficient until the last application since they are protected by the innovative airless packaging from oxygen, heat, light, bacteria and humidity.

Caviar Extract

Caviar extract incorporated into skin product gives life back to the skin cells because of the cellular consistency between skin and caviar. The cellular structure of CAVIAR is strikingly similar to that of the skin: 50 to 70 percent water, with a similar percentage breakdown of lipids, protein and trace elements.

It is very rich in vitamins A, D, B1, B2, B6 and micro-elements Co, Cu, P, Si, Zn as well as amino acids like glycine, lysine, histidine, arginine, asparagine. These ingredients intensify the processes inside the skin cells and at the same time slow down the aging process by moisturizing.
