

Dermastir Ampoules - Luxury Serum

Dermastir Ampoules are luxurious anti-ageing serums that contain concentrated active ingredients. The active ingredients provide targeted action against signs of ageing and various skin conditions, improving the quality of the skin and its aspect.

Dermastir Ampoules are presented in single-dose 2-3 ml ampoules made of special medical glass that prevents any risk of oxidation or contamination. Thanks to this monodose packaging, the serums deliver to the skin the freshest formula with maximum performance of active ingredients.

SERUMS

MONODOSE

Medical glass ampoules

Quantity: 10 x 2ml

Dermastir Ampoules can be used in combination with aesthetic machines such as ultrasound, galvanic, high frequency, RF, PDT LED

The high concentration of active ingredients of Dermastir Ampoules provides visible results which last even longer if ampoules are used as course treatments. Dermastir Ampoules can be used at home, during aesthetic treatments and with aesthetic machines. Dermastir Ampoules can be used directly on the skin or mixed with a cream or the mask.

Dermastir Luxury Ampoules - Blue Lotus Stem Cells

The extract of Blue Lotus, contained in the Dermastir Ampoules Blue Lotus Stem Cells combines two important actions, such as a decrease of the physiological cell oxidation and a decrease of the physiological modification of proteins (e.g. glycation), thereby contributing to tighten the skin.

Blue Lotus flowers were found scattered all over Tutankhamen's body when the Pharaoh's tomb was opened in 1922. Blue Lotus is often depicted in Egyptian art held in the hands of the gods and royalty. It is said to be the Soma of the Egyptians symbolizing life and rebirth. The flower was traditionally used to regenerate, relieve inflammation and to improve circulation. The Blue Lotus elixir has often been referred to as the "Egyptian Fountain of Youth".

Nymphaea Coerulea Leaf Cell Extract

The extract of the leaf cells of the Water Lily contain alive stem cells that move and thus wake up skin cells when applied topically. Blue Lotus Stem cells also have anti-oxidant properties that slow down cell oxidation and combat free radicals.

Sodium Hyaluronate

Increases the amount of hyaluronic acid content in the layers of the skin, making the skin appear more smooth and plump. When applied to the skin, it helps skin retain moisture, promotes regeneration and nutrient absorption. The overall action moisturizes the skin and makes wrinkles less visible.

DIRECTION FOR USE

Break the top of the skincare ampoule. Distribute the precious serum directly on the skin or mix in a cream or in a mask. Massage delicately on the interested areas until completely absorbed.

NORMAL PROGRAMME

1. Apply one skincare ampoule every seven days for a month.
