Dermastir Luxury Ampoules Global Eye Care

Dermastir Global Eye Care Ampoules are a moisturizing and toning treatment, specifically for the eye area being the most delicate and vulnerable area of the face. Dark circles around the eyes are a very common skin sign that occurs due to fatigue, incorrect sun exposure and external factors. The serum, carefully preserved in glass single-use ampoules, minimizes deep wrinkles around the eyes by filling them; it smoothenes the skin, relaxes one's facial look and counteracts eye bags and dark circles around the eyes. The nourishing extracts present in the Dermastir Global Eye Care serum help to strengthen the thin skin around the eyes, tighten it, smooth, hydrate and restore to the skin around the eyes its natural softness.

ANTI-WRINKLE

DARK CIRCLES

FATIGUE

Acmella Oleracea Extract

An active ingredient with natural myorelaxant properties. It works by relieving muscle contractions of the face, responsible for wrinkle and expression lines of the eye contour area. This natural muscle relaxant smooths the skin and improves its microrelief, contributing to a radiant relaxed look.

Sodium Hyaluronate

Increases the amount of hyaluronic acid content in the layers of the skin, making skin appear younger, smoother and plumper. When applied to the skin, it helps skin retain moisture, promotes skin repair, microcirculation and nutrient absorption. Results in firmer, plumper skin, which makes wrinkles and dark circles less visible.

DIRECTION FOR USE

Break the top of the skincare ampoule. Distribute the precious serum directly on the skin or mix in a cream or in a mask. Massage delicately on the interested areas until completely absorbed.
