

Dermastir Ampoules - Luxury Serum

Dermastir Ampoules are luxurious anti-ageing serums that contain concentrated active ingredients. The active ingredients provide targeted action against signs of ageing and various skin conditions, improving the quality of the skin and its aspect.

Dermastir Ampoules are presented in single-dose 2-3 ml ampoules made of special medical glass that prevents any risk of oxidation or contamination. Thanks to this monodose packaging, the serums deliver to the skin the freshest formula with maximum performance of active ingredients.

Dermastir Ampoules can be used in combination with aesthetic machines such as ultrasound, galvanic, high frequency, RF, PDT LED

The high concentration of active ingredients of Dermastir Ampoules provides visible results which last even longer if ampoules are used as course treatments. Dermastir Ampoules can be used at home, during aesthetic treatments and with aesthetic machines. Dermastir Ampoules can be used directly on the skin or mixed with a cream or the mask.

Dermastir Luxury Ampoules Vitamin C

Vitamin C in the Dermastir Vitamin C Ampoules is well known for its antioxidant and lightening properties, as it protects the skin against photo-aging and leaves it radiant and bright.

Vitamin C is manufactured into a stable topical formulation presented in monodose glass ampoules. For this reason, it is a powerful concentrated antioxidant that is effective in protecting the skin against pigmentation, dark spots etc.

Vitamin C may also play part in the collagen biosynthetic pathway by activating collagen metabolism and dermal synthesis of elastic fibers.

PHOTO-AGING

ANTI-WRINKLE

PIGMENTATION

OXIDATIVE STRESS

DIRECTION FOR USE

Break the top of the skincare ampoule. Distribute the precious serum directly on the skin or mix in a cream or in a mask. Massage delicately on the interested areas until completely absorbed.

NORMAL PROGRAMME

1. Apply one skincare ampoule every seven days for a month.
2. To consolidate the obtained results repeat phase 1.

INTENSIVE PROGRAMME

1. Apply one skincare ampoule every three days for a month.
2. To consolidate the obtained results repeat phase 1.

WARNINGS: Do not expose yourself to the sun. Avoid contact with eyes and in case rinse with water. The skincare ampoule tip must be broken by using a piece of cloth.

Vitamin C

Vitamin C is one of the most valued active ingredients in dermatology, due to its multiple benefits for the skin. Not only it is one of the most powerful anti-oxidants known, but it also stimulates the skin's metabolism and the formation of collagen. It also helps reduce irregular pigmentation.

Topical Vitamin C has shown to protect the skin from UV damage caused by prolonged sun exposure by reducing the amount of free radical formation and/or sunburn cells. Exposure to UV light has also shown to decrease the naturally occurring Vitamin C level in the skin, thus the topical application of Vitamin C restores the photoprotective levels.
