

Dermastir Hydraceutic Cream - 50ml

Alta Care Laboratoires has created Dermastir Luxury Hydraceutic cream to hydrate deeply the skin and, at the same time, protect the skin from oxidative stress and other external agents that may compromise skin quality and condition.

The hydration provided by Dermastir Luxury Hydraceutic cream is based on two synergistic factors: inner hydration and outer protection.

The ingredients retain their hydrating power at maximum due to the vacuum airless packaging that protects the hydrating ingredients inside the jar. At the same time, anti-oxidant ingredients shield the skin from dehydration and free radicals.

Dermastir Hydraceutic Cream - 50ml

Free radicals are found in the environment in air pollutants, chemicals, smoke etc. Since the oxidative stress and the exposure to free radicals are hardly evitable, it is essential to minimize their damages to the skin. The solution is to increase proper level of antioxidants to combat effectively free radicals and form a protective barrier on the skin.

Dermastir Luxury Hydraceutic cream is rich in ingredients with antioxidant properties, which perform as well brightening, soothing and smoothing action. The skin looks more revitalized, regenerated and refreshed. Dermastir Luxury Hydraceutic cream can be used daily as a part of beauty routine to protect and hydrate the skin.
