

DERMASTIR®

Dermastir Luxury Night Cream - 50ml

Dermastir Luxury Night Cream by Alta Care Laboratoires is a potent anti-ageing night treatment. Dermastir Luxury Night Cream stimulates skin cells during the sleep and improves skin density and texture, makes the skin brighter, smoother and more lifted. Most importantly, Dermastir Luxury Night Cream provides a draining effect and improves microcirculation that prevents the puffiness and water retention in the face. Dermastir Luxury Night Cream is presented in a special airless jar that protects the formula from external factors such as oxygen, heat, light, humidity and bacteria. This means that the formula maintains its stability and efficacy from the first till the last application.

MADE IN FRANCE

DERMASTIR®

Caviar Extract

Extracting oil from one of the world's most expensive delicacies and incorporating it into skin cream gives life back to the skin cells because of the cellular consistency between skin and caviar.

The cellular structure of caviar is strikingly similar to that of the skin: 50% to 70% water, with a similar percentage breakdown of lipids, protein and trace elements. It is very rich in vitamins A, D, B1, B2, B6 and micro-elements Co, Cu, P, Si, Zn as well as amino acids like glycine, lysine, histidine, arginine, asparagine.

These ingredients intensify the processes inside the skin cells and at the same time slow down the aging process by moisturizing.
