

Smart Jigger Mounting Options

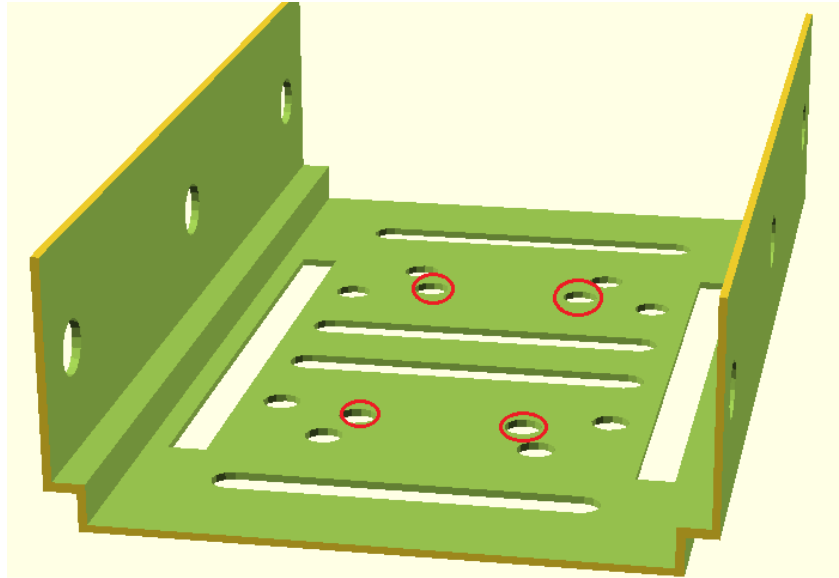

The Smart Jigger comes with a Universal Mounting Plate. With a little imagination and creativity, it should be easy to fit in your existing setup. If necessary, you could drill additional holes to fit your needs as the last resort.

If you have Scotty Rod Holder base firmly mounted on your boat, we recommend this solution. Purchase a Scotty #368. For under \$20, you can adjust the direction/angle, i.e. swivel.

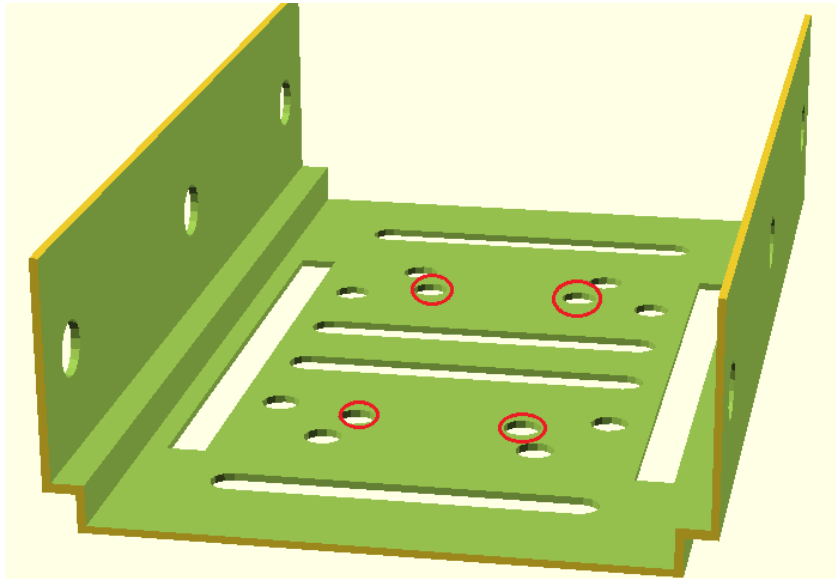

Scotty #368 Universal
Sounder Mount

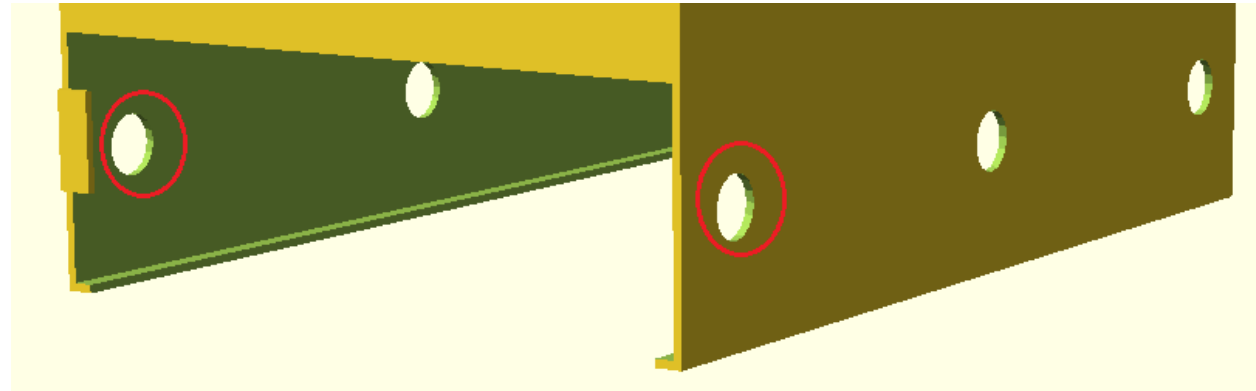

Scotty Rod Holder Mount -
Combination Deck Or Side
Mount

Scotty #269 works similarly to #368, but may not be as stable

Scotty #269 Swivel Fishfinder
Mount for Lowrance, Eagle w/
Side/Deck Mount

If you have Scotty #1023, the Smart Jigger can sit on it and with a long bolt to lock it in place. The mounting plate is not needed, and you could mount the plate on the Scotty #368, so that you have the flexibility of moving the Smart Jigger between the downrigger mount (#1023) or the Scotty #368 that sits on a rod holder on your boat.

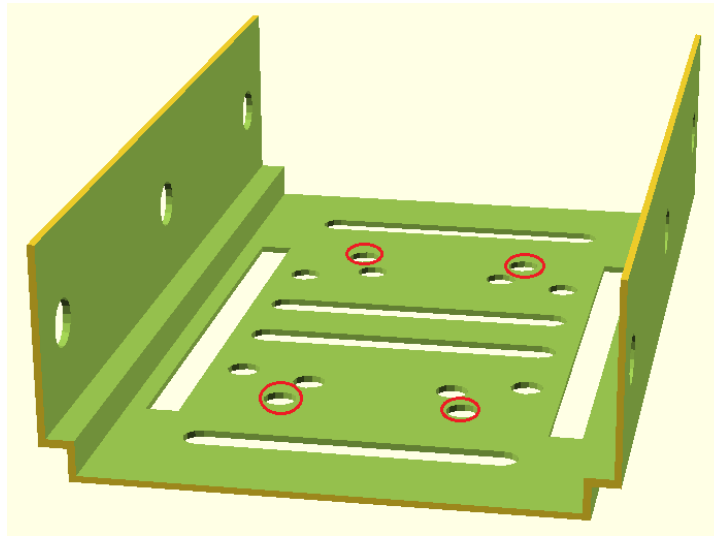

Scotty #1023 Mounting
Bracket for Scotty Downrigger
Models 1080 - 1116

Scotty #1134 Longer
Mounting Bolt for Current
Models

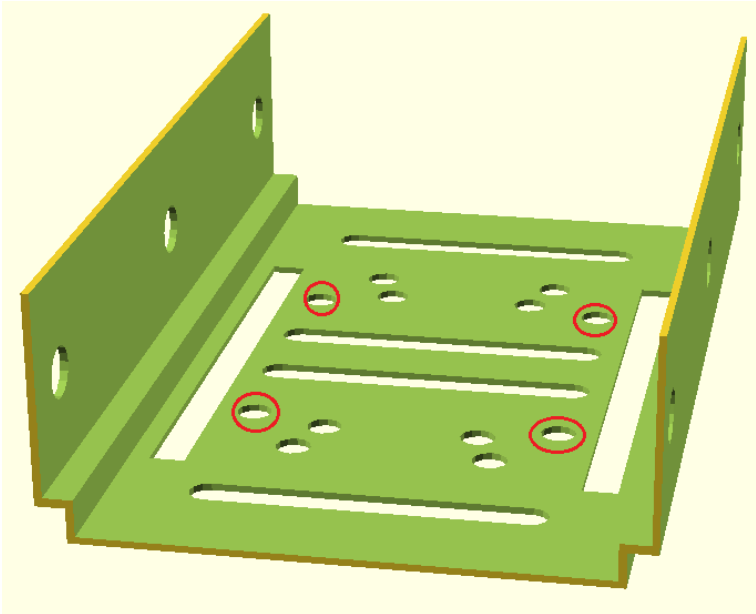

If you have a Scotty #1026 swivel, you could mount the Universal plate directly on it

Scotty #1026 Swivel Pedestal
Mount for All Scotty
Downrigger
Models, BLACK, Small

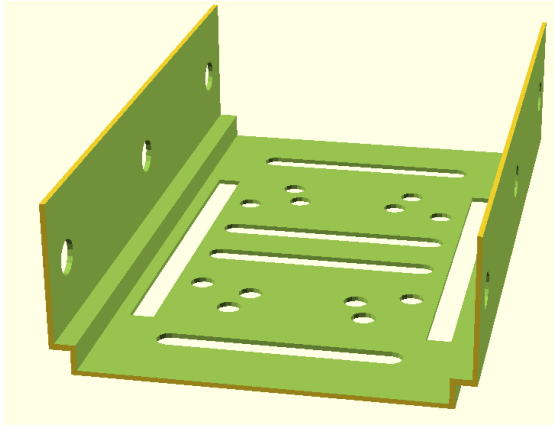

If you have a Cannon swivel, you could mount the Universal plate directly on it

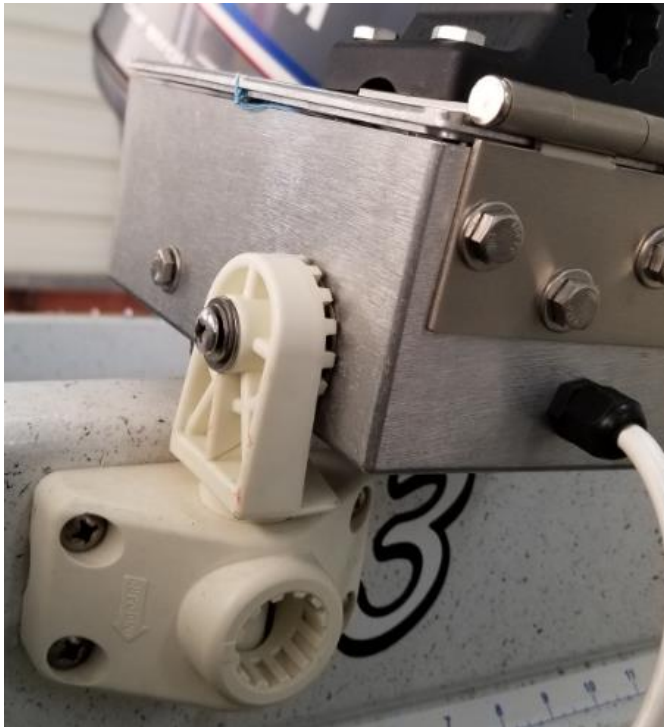

Cannon Low-Profile Swivel Base

For everything else, with a little imagination and creativity, it should be easy to fit in your existing setup. If necessary, you could drill additional holes to fit your needs as the last resort.

Creative mount example: using Scotty rod holder. Sitting on the boat gunwale. Without the universal plate

More adapters to existing downrigger mounts are under consideration (sold separately). Email info@sunfran.com with your wish list.
