Use a Solar Power Kit to power and shelter your wireless Vantage Pro2 or Vantage Vue console, or wireless Weather Envoy in remote field installations. The Solar Power Kit includes a weather-resistant shelter; a 5-watt solar panel; a 6-volt, 1.4 amp-hr battery; and a 10' (3 m) console or Envoy power cable. (For cabled Vantage Pro2 consoles, use the Heavy Duty Solar Power Kit, #6618.)

For extra solar charging in low light installations, use the Solar Power Kit with an Extra Solar Panel Kit (# 6616):
