## BALANCED BEAUTY

'My style relies heavily on symmetry and coordination,' says João Botelho, founder and creative director at Casa Botelho. 'A balanced aesthetic creates an elegant, harmonious atmosphere, easing the subconscious mind and making guests feel comfortable.' A pair of wall lights sets the symmetrical pace here, flanking a bold oil painting. Matching Beetle chairs pair perfectly with Matthew Hilton's Light extending dining table, for De La Espada. João mixed in his Atena Carver dining chairs, retaining consistency by upholstering them in Olive Novasuede to match the others.

**Project details** Find the Light dining table at Heal's, £7,416. The green velvet Beetle chairs by GamFratesi for Gubi are available at The Conran Shop, £961 each. For a similar paint colour to the mantelpiece and walls, try Farrow & Ball's Cornforth White estate emulsion, £45 for 2.5L.
