

# Assembly Instructions For The Hickory End Table & Coffee Table

## Tools Needed For Assembly:

Screwgun  
Phillips Head Bit

## Parts List:

Table Top With Braces (1)  
Shelf (1)  
Leg Assemblies (2)

## Hardware:

2" Wood Screws (8)  
1" Wood Screws (4)

- Step 1** Lay out and identify all the parts and pieces.
- Step 2** Take a leg assembly and locate the predrilled holes on one end of the legs. That will be the top. Line them up with the predrilled holes on the end of the table top and insert two 2" wood screws. (The table top has the braces attached to the sides which will attach to the legs). Fasten the other leg assembly to the table top in the same manner. **Do not overtighten any screws.**
- Step 3** Find the predrilled holes close to the bottom of the leg assemblies and line them up with the predrilled holes on the end of the shelf. Fasten the shelf with four 2" wood screws.
- Step 4** Now turn the ends of the braces attached to the table top and line up the predrilled holes in one end with the predrilled holes in the side of the legs. Attach to the legs with the four 1" wood screws. **Do not overtighten as this can split the wood.**
