

Assembly Instructions For Poly New Hope Bench/Side Table

Parts List:

Table Top (1)

Shelf (1)

Legs (4)

Hardware:

1/4" x 1-3/4" Bolts (12)

Allen Wrench (1)

- Step 1** Lay the table top upside down on a clean surface. (The top has 2 predrilled holes in the side of the frame in each corner, the shelf only has one).
- Step 2** Take the four legs & place them inside the frame of the table top aligning the two threaded inserts in the top of each leg with the predrilled holes in the frame. Insert two bolts in through the frame & turn them into the inserts in the top of each leg. Semi-tighten only. **Do not fully tighten until entire table is assembled.**
- Step 3** Now attach the shelf to the bottom of the table. Place the shelf upside down & slide in between the legs. (The table should still be upside down with the legs sticking up). Align the predrilled holes in the bottom of the legs with the threaded inserts in the side of the shelf. Insert the last four bolts in through the legs and turn into the inserts. Semi-tighten only.
- Step 4** Set the table upright. Straighten all four legs & once the table is level tighten all bolts with the Allen wrench.
