MADE SMART

want to watch this assembly IRL?

(acronym challenged? that means "in real life".)

open the camera on your phone and place it over the QR code below to see our NYC studio dream team do all the heavy lifting (just kidding, there is none!)

or go to ducducnyc.com/assembly-instructions

thank you for selecting a
studio duc product!

Please check contents against the components list in these instructions. Also, please ensure there was no damage that may have occurred in shipping. If any components are missing or you find any damage, please contact ducduc before continuing.

To use the dresser as a changing table, insert and use the changing table tray provided with the dresser.

We recommend the use of a Colgate 3-Sided contour Pad (CR300-S80) if this dresser is to be used as a changing table.

Maximum changing pad dimensions: W16" x L33" x H5".

Pay close attention to the safety warnings in these instructions and on dresser/changer labels.

The maximum weight of any child on top of the dresser/changer is 45 pounds.

⚠ WARNING

FALL HAZARD: Children have suffered serious injuries after falling from changing tables. Falls can happen quickly.

- **STAY** in arm's reach of your child.

- **ALWAYS** secure this unit to support surface using the mounting hardware provided. see instructions.

Read all the instructions before use.

Do not use if dresser/changer is damaged or broken.

CARE AND CLEANING:

Do not scratch or chip the finish. Do not use abrasive chemicals for cleaning. Clean with mild soap on a soft rag. Rinse and dry thoroughly. If you ever re-finish this furniture, be sure to use only a non-toxic finish.
Do not attempt to move this dresser/changer alone–dragging or sliding it across a floor may cause structural damage. A minimum of two people is required to safely lift and reposition the dresser/changer.
**KEEP INSTRUCTIONS FOR FUTURE USE**
WHAT'S IN THE BOX:
A1
L side panel

A2
R side panel

E
top

DB1 (x4)
drawer face

F
hammer cap

DB2 (x4)
drawer box back
G
safety strap kit
(with hardware)

SAFETY
STRAP
B
back panel

DB3 (x4)
L drawer box side

DB4 (x4)
R drawer box side

C
bottom

DB5 (x6)
drawer box bottom
D
stretcher

INCLUDED WITH CHANGER ONLY:

**H**
changing tray

I (x2)
tray bracket
**J (x8)**
JCB bolt (20mm)

K (x8)
5/16" locking
washer

L
allen key (4mm)
WHAT YOU'LL NEED:

**household hammer or
rubber mallet**

**phillips head screwdriver
and/or drill with 6mm bit**
20 minutes
(or less)

a soft surface to assemble on
*(like a rug or some of the corrugate
box your piece arrived in)*

**2 people
plus a dog for moral support**
*(unless you're a cat person)*

1 lean R side panel (A2) against a wall as shown.

2 insert connectors of back panel (B) into slots on R side panel (A2). push down at the connection to lock into place. make sure the pre-drilled holes on back panel (B) are not facing the drawer glide hardware.
still confused? scan this code to watch the assembly video! ⟶

3 insert connectors of back panel (B) into slots on L side panel (A1). push down at the connection to lock into place.

**4a** have a friend gently flare the side panels outward as shown.

4b

with the side panels flared outward, insert connectors of bottom panel (C) into slots on R side panel (A2).
4c insert remaining connectors of bottom panel (C) into slots on L side panel (A1).

4d once all connectors and slots are lined up and side panels are back to square position, apply hammer cap (F) to the head of a household hammer and tap bottom panel (C) until there is no gap at the connection to back panel (B).
still confused? scan this code to watch the assembly video! ⟶

5 insert connectors of stretcher (D) into slots on both side panels (A1 + A2). tap with hammer and hammer cap (F) to lock into place.
6 with a friend, flip partially assembled case into upright position. line up holes of top (E) with the connectors of side panels (A1 + A2) and back panel (B). tap with hammer and hammer cap (F) to lock into place.

7a now we build the drawers! starting with drawer face (DB1) facing down, insert connectors of both drawer box side panels (DB3 + DB4) into slots on drawer face (DB1). push down at the connections to lock into place.
still confused? scan this code to watch the assembly video! ⟶

7b

rotate the partially assembled drawer box as shown. slide drawer box bottom (DB5) into place using grooves on the drawer box side panels (DB3 + DB4) as guides. be sure glide hardware on bottom panel (DB5) is positioned outside the drawer interior and toward the drawer face (DB1) as shown.

7c

again, rotate partially assembled drawer box as shown. insert connectors of drawer box back (DB2) into slots on drawer box sides (DB3 + DB4). push down at the connections to lock into place. use hammer and hammer cap (F) if needed.

duc insider tip!
*when the drawer bottom panel is properly installed, it should be recessed about a 1/4"
from the back of the drawer sides.
(don't be afraid to use some force!)*
still confused? scan this code to watch the assembly video! ⟶

8   build remaining drawers using steps 7a, 7b, and 7c.

9a   starting at the top, pull drawer glides out to extended position as shown.

still confused? scan this code to watch the assembly video! ⟶

9b

place one assembled drawer box onto extended glides as shown. from underside of drawer, use hands to pull each glide forward until it locks into connection with glide hardware attached to drawer box bottom (DB5). the drawer will be secure when you hear a click on each connection. once secured, push drawer box in to close.
still confused? scan this code to watch the assembly video! ⟶

10

repeat steps 9a + 9b to install the remaining drawers.

☆

before you move on!

proceed to the next step if you purchased a **changer**.
for a **dresser**, skip to step 12.

11 place changing tray (H) on top of assembled case so the pre-drilled holes at the backs of both pieces align. starting at one side, place hardware (I) over the holes on the case and changing tray (H). secure into place using the allen key (L) to screw in hardware (J + K) as arranged in the picture.

DETAIL VIEW

duc insider tip!
when attaching the changing tray to the dresser, start by loosely screwing in each bolt over the bracket. once everything is lined up and each of the 4 bolts are in place, fully tighten all screws until secure.

*repeat on the remaining bracket using the same method.*

12

safety strap installation

the last step for your 4 drawer dresser/changer is to install the safety strap included in the box. reference the separate instructions enclosed in the envelope.

SAFETY
STRAP

yippee! you did it!

give yourself a pat on the back, take a bow,
or go house a pint of ice cream...we don't judge.

prefer to talk to a human instead?
