# HOW TO USE (Remote Control)

## SPECIAL EFFECT MODES

The ring light illuminates 9 different colours + 8 Special Effect lighting modes. Click on the RGB button to cycle through each RGB colour and Special Effect.

## INSTALLATION (Camera)

- Screw the 1/4 inch camera mount to the base of the camera
- Slide the cold shoe base of mount into the slot on the ring light
- Tighten the locknut by turning clockwise until tight and camera is secure
- Rotate the middle section of the mount so that you can tilt the camera to the desired angle
- Once the camera is at the right angle tighten the side bolt to hold in place.

## USB POWER

Connect to suitable USB source providing 5V D.C. 2A (10W).  
(USB Adaptor not included)

### WARNINGS: READ BEFORE USING

Photosensitivity / epileptic seizures:

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a computer screen, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, have an epileptic condition, consult your physician prior to using. If you experience any of the following symptoms while using the product -- dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions - IMMEDIATELY discontinue use and consult your physician before resuming using.
