

WhisperWalk
LVT

LVT/LVP Underlayment

Whisper Walk LVT/LVP Underlayment, made from extruded polystyrene, is composed of closed foam technology for outstanding sound reduction. Made for luxury vinyl tile and plank installation applications, Whisper Walk LVT helps correct minor subfloor imperfections and is extremely flexible. Its unique design and texture optimizes sound reductions. Can be used for glue down and floating installations.

100 SF Coverage

1.5 mm Thick
