

PUT NEXARO ROBOTS TO WORK IN **YOUR COMPANY**

NEXARO NR 1700

The compact robot vacuum cleaner developed and approved for commercial use in offices, hotels, or retail premises, large or small spaces, individually or as a fleet, at night or during public business hours. The answer to the skilled worker shortage, cost pressure, and the highest cleaning performance demands.

LESS TIME AND LOWER COSTS

Reduction of manual cleaning time by 80% on average.

SMART AND SCALABLE

Automatic mapping, no-go zones, immediate mobile online connection, fleet coordination via Nexaro HUB.

CLEAN 24/7

Operation at night or during public business hours possible due to fulfillment of IEC 63327; up to 250 minutes on a single battery charge.

AUTONOMOUS, SAFE AND SECURE

Safe according to IEC 63327, TÜV-certified, "Safety tested" seal, first-rate IT security in cobotics system solution.

DATA PROTECTION COMPLIANT

No cameras, no microphones – data hosted in EU and GDPR-compliant.

HIGHLY VERSATILE

10 to 10,000 m²: whether a single room or a whole building, one robot or a fleet, installed on a fixed schedule or cleaning at the press of a button (Drop & Go).

TASKS OF NEXARO ROBOTS

- ✓ Automated vacuuming of hard floors and carpets
- ✓ The robot vacuums open-floor areas, staff handles the rest
- ✓ Automatic charging
- ✓ Automated mapping
- ✓ Autonomous operation, also at night
- ✓ Operation during public business hours
- ✓ Excellent cleaning performance – every day

TASKS OF CLEANING SPECIALISTS

- ✓ Emptying dustbin ~1-2 times per month
- ✓ Checking brushes
- ✓ Resetting in case of error
- ✓ Transport from room to room (with Drop & Go use)
- ✓ Other tasks, while robot vacuums floors
