SAFETY INSTRUCTIONS

To prevent damage to your E9330 BackUP or injury to yourself or to others, please read the following safety precautions in their entirety before using this BackUP. Keep these safety instructions where all those who use the BackUP can read them.

WARNING

- Do not attempt to service or access internal components. The BackUP is to be serviced by a qualified representative only.
- Do not use the BackUP while under the influence of drugs or alcohol.
- Do not use flammable liquids to avoid risk of explosion or fire.
- Do not use the BackUP in the presence of flammable gas that could result in fire.
- Always use personal safety equipment such as gloves, goggles, face masks when required.
- Do not tamper with or alter any parts of the BackUP.
- Do not leave BackUP running unattended.
- Do not fill the tank without using the filter (the filter should only be removed for cleaning purposes).
- The BackUP is not suitable for use by persons under 16 years old.
- Do not place the strap around the neck of an infant or child.
- The BackUP is to be used with the ARMOR, read the ARMOR user manual before operating.

IMPORTANT: in the event of malfunction remove the BackUP immediately. Continued operation could result in injury. After removing the BackUP, take the BackUP to an authorized service centre for inspection.

3. Every 5 products are packed in an outer box.
    (51.5 cm / 1.67 ft L x 46 cm / 1.51 ft W x 35.5 cm / 1.16 ft H).

USER GUIDE

UNPACKING THE BACKUP

Carefully open the product packaging to find the user manual on top, inside the box. Please carefully read the user manual in full before continuing to unpack.

PREPARING THE BACKUP FOR INITIAL USE

The user is advised to use the BackUP only after they have read and understood all safety and operating instructions.

PLEASE NOTE:
The BackUP is an accessory of the ARMOR, it is advised to read the ARMOR user manual before operating the BackUP with the ARMOR
Follow the below steps when using the BackUP for the first time:

STEP 1
Unzip the BackUP and take off the velcro straps to remove the large and small bladder inside.

STEP 2
Carefully fill the large bladder with your cleaning liquid. Carefully fill the small bladder with water.

STEP 3
Ensure the caps are screwed tight on the bladders then strap the bladder to the velcro straps and close the zip of the BackUP.

STEP 4
Wear the BackUP and secure using the chest clip. Adjust the length of the shoulder straps to suit the users size.

STEP 5
Attach the tank connector to the ARMOR tank, ensuring it clicks firmly into position.

STEP 6
Rotate the manual valve by hand to select the large bladder to spray the cleaning fluid.

STEP 7
Now the BackUP is ready to be used with the ARMOR. Fill the ARMOR Tank atleast 60% to allow use of the machine at elevated angles.

IMPORTANT:
Read the ARMOR user manual before using the BackUP with the ARMOR.

CLEANING FUNCTION
The BackUP is equipped with a smaller water bladder. This bladder can be activated by turning the manual valve to the 10 FL.OZ / 0.3L setting and spray using the empty function of the ARMOR. By following this process the whole system of BackUP and ARMOR will be flushed with water. It is advised to use this cleaning function every time a job is complete.
