

BASE	DESCRIPTION	APPLICATIONS
ANHYDROUS CREAM LETCO	A light, pharmaceutically elegant cream with a smooth silky feel. Water-free, petroleum-free and artificial preservative-free. Nearly odorless, leaves a dry silky feel upon application.	Suitable for a wide range of commonly used APIs. Compatible with botanicals, penetration enhancers, common wetting agents, and vitamins.
CARBOMER GEL-AQUEOUS LETCO	Elegant gel base. Non-greasy, non-film forming carbomer gel base. Water soluble, neutral to alkaline ingredients are easily incorporated.	Ideally suited for many dermatological and cosmetic preparations: dermatology, cosmetic, Hormone Replacement Therapy, dental, phonophoresis and ultrasound gel.
CARBOMER GEL-HYDROALCOHOLIC LETCO	Fast-drying, non-greasy, non-film forming alcohol based carbomer gel vehicle. Suitable for many dermatological and cosmetic preparations.	Versatile gel vehicle designed to deliver water and alcohol soluble ingredients. Suitable for neutral to alkaline ingredients. Ideal for dermatology, cosmetic, Hormone Replacement Therapy
EMOLLIENT CREAM LETCO	A heavy oil-in-water (O/W) emulsion base with emollient properties. Emollient cream is smooth, non-irritating, has excellent slip characteristics and leaves no sticky residue. Paraben, fragrance and dye free.	Suitable for a wide variety of pharmaceutical and cosmetic uses. Ideal for dermatology, cosmetic and vaginal use.
GELATIN GUMMY TROCHE LETCO	A ready-made gelatin base that saves time when compounding gelatin troches. Has the texture of a gummy bear, making it a good alternative troche base for paediatrics.	Ideal for paediatrics, veterinary use and Hormone Replacement Therapy.
HRT CREAM LETCO	Smooth, consistent and cosmetically elegant cream formulated to provide a stable, effective vehicle for hormone restoration active ingredients. Paraben-free, fragrance-free and dye-free.	Hypoallergenic and non-comedogenic with natural antioxidants and lipids for a soothing and protective effect on the skin.
LECITHIN ORGANOGEL LETCO PLURONIC GEL 20% F127 LETCO	A ready-made mixture of Lecithin and Isopropyl Palmitate. Absorption enhancer, emulsifier and solvent. Combine with Lecithin Organogel	Commonly used with Pluronic 20% or 30% gel to form a PLO transdermal gel.

BASE	DESCRIPTION	APPLICATIONS
<p>LIPOLAYER</p> <p>LETCO</p>	<p>Provides an elegant alternative to traditional PLO transdermal systems and enhanced transdermal delivery of a wide variety of compounding APIs. Offers superior emulsion stability and protection against ionic and high API loads.</p> <p>Wide range pH stability, high API load tolerance, stable at refrigerated and room temperatures</p>	<p>The smooth, creamy texture allows for easy application and leaves no tacky residue.</p> <p>Ideal for pain management, Hormone Replacement Therapy, dermatology, veterinary, paediatrics and hospice.</p>
<p>MACADAMIA PHARMA BASE</p>	<p>Based on cosmetic grade Macadamia Oil, it has renowned stability and absorption properties.</p>	<p>For transdermal compounding use.</p>
<p>MEDIUM CREAM</p> <p>LETCO</p>	<p>Fast absorbing oil-in-water (O/W) emulsion base with emollient properties.</p> <p>Offers high-end feel and slip to your compounded products and is non-ionic and ester free.</p> <p>Paraben free, fragrance free and dye free.</p>	<p>Provides an excellent, multi-purpose delivery vehicle for hormones, steroids and many other active ingredients.</p> <p>Ideal for Hormone Replacement Therapy, dermatology, veterinary, paediatrics and hospice.</p>
<p>PLASTICISED OINTMENT</p> <p>LETCO</p>	<p>Soft elegant anhydrous ointment vehicle presenting oleaginous and emollient properties.</p> <p>Water free, paraben free, fragrance free and dye free.</p>	<p>Commonly used in oral and topical applications.</p> <p>Ideal for dermatology and dental.</p>
<p>SALT DURABLE CREAM</p> <p>LETCO</p>	<p>A cosmetically elegant compounding base with an improved feel over traditional PLO based delivery systems due to the silogel component.</p> <p>This time-saving, ready-to-use base does not require pre-wetting of actives and no additional thickening agent is needed.</p> <p>Stable to a broad range of pH and stable to a broad range of salts.</p>	<p>For transdermal compounded preparations that contain high percentages of active pharmaceutical ingredients or preparations with multiple active ingredients.</p> <p>Ideal for pain management, wound care and scar care.</p>

BASE	DESCRIPTION	APPLICATIONS
<p>SEPINEO P600 LETCO</p>	<p>The latest in dermapharmaceutical and cosmetic technology offering thickening, stabilizing and emulsifying options for any dermatologic preparation. Simple formulation inclusion requires no rehydration, hot temperatures or pH neutralization. Offers great skin tolerance in gels, gel-creams and emulsions providing a light, non-tacky touch. Broad pH range viscosity stability (2 - 10). Can tolerate high amounts of solvents. Easy to handle and incorporate into formulations.</p>	<p>Suitable for any dermatological preparations. Great tool for rescuing problem emulsions and creating unique topical preparations.</p> <p>Thickener – Stabilizer: 0.5% - 2% Emulsifier (Gels & Creams): 1% - 5%</p>
<p>SIMPLGEL 30 LETCO</p>	<p>A thickening and emulsifying agent in liquid form that can be used to emulsify all types of oil phases without heating, producing gel-creams with a rich, silky texture that is easy to apply and rapidly absorbed by the skin. Provides a soft, non-sticky feel.</p>	<p>Compatible with very acidic pH levels.</p> <p>Thickening agent Emulsifying agent</p>
<p>SUPPOSIBASE-F FATTIBASE LETCO</p>	<p>A fatty acid suppository base suitable for both rectal and vaginal use. This product is manufactured from raw materials of strictly vegetable origin.</p>	<p>Rectal suppositories Vaginal suppositories</p>
<p>SYRUP VEHICLE NF LETCO</p>	<p>Traditional sugar containing syrup vehicle. Sweet taste. A flavour-free, clear liquid syrup that allows for individual flavour customisation.</p>	<p>For compounding oral liquid dosage forms. Ideal for hydrophilic and ionic APIs.</p>
<p>SYRUP VEHICLE SF LETCO</p>	<p>A sugar-free, saccharin-free, dye-free, flavour-free, paraben-free syrup vehicle. Created with ingredients and preservatives helping result in fewer patient allergic reactions. Equivalent to Ora-Sweet SF.</p>	<p>For compounding oral liquid dosage forms. Ideal for hydrophobic, hydrophilic and acid-stable APIs. Ideal for allergy sensitive and diabetic patients.</p>
<p>SUSPENSION VEHICLE (NATURAL) SF LETCO</p>	<p>A white liquid, sugar free, saccharin-free, dye-free, paraben-free and flavour-free suspension vehicle. Created with natural ingredients and natural preservatives helping result in fewer patient allergic reactions. Equivalent to Ora-Plus SF.</p>	<p>For compounding oral liquid dosage forms. Ideal for hydrophobic, hydrophilic and acid-stable APIs. Ideal for allergy sensitive and diabetic patients.</p>

BASE	DESCRIPTION	APPLICATIONS
TOMMYGEL® LETCO	<p>A versatile thickening and emulsifying agent for topical preparations for gels, cream gels and emulsions.</p> <p>Comes in a very easy-to-use liquid form and emulsifies all types of oily phases without heating.</p>	<p>Compatible with extreme pH values.</p> <p>Compatible with strongly oxidizing media</p> <p>Ideal as a thickening agent and emulsifying agent.</p>
TROCHE BASE SUGARFREE WITH BITTER-BLOC (NEW FORMULATION) LETCO	<p>An easy-to-use, convenient alternative to time-consuming traditional troche preparations.</p> <p>An anhydrous, sugar-free troche base that incorporates natural bitter blocking technology. Additional flavours, colours, and sweeteners can be easily incorporated. Pharmaceutical grade Polyethylene Glycols, natural sweetener, thickening and suspending agents and flavour enhancers are already included - just melt and add API and flavour.</p> <p>Easy to measure and use, pre-sweetened, includes natural bitter blocking technology.</p>	<p>Enhanced with natural sweeteners and suspending agents, it is ideally suited for buccal absorption of APIs.</p> <p>Ideal for Hormone Replacement Therapy, pain management, dental and sexual dysfunction.</p>
VANISHING CREAM LETCO	<p>An easily absorbed non-greasy, oil-in-water (O/W) emulsion base for general compounding use.</p> <p>Cosmetically elegant, non-greasy. Fragrance and dye free.</p>	<p>Compatible with a wide variety of active pharmaceutical ingredients and excipients.</p> <p>Ideal for Hormone Replacement Therapy, dermatology, veterinary.</p>
WITEPSOL H15 LETCO	<p>A fatty acid suppository base suitable for both rectal and vaginal use.</p> <p>Also known as Base F. White, odorless, pastille shape.</p>	<p>Rectal suppositories</p> <p>Vaginal suppositories</p>
