12. User Manual x 1

* Each glass piece is hand blown and may vary slightly in size

QUICK START

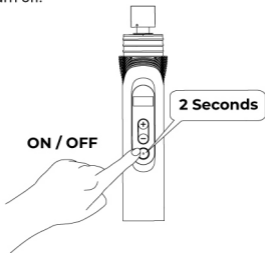

- Fully charge the device before first use.
- Screw the heating chamber onto the Cira base.
- Fill glass mouthpiece with water just above the air-holes but below the fill line. Do not fill mouthpiece while it's attached to Cira base.
- Use the wax loading tool to place wax on the heating chamber.
- Secure glass mouthpiece onto the Cira base and place glass cap on top of the chamber. Attach the silicone tether to keep cap safe during use.

Attach silicone tether here

*It is recommended to use Cira fixed onto the charging base and placed on a stable surface to prevent tilting.

- Press the  button for 2 seconds to turn on the device.
- Press "+/-" to adjust temperature that fits your consumption needs, then double click  button to start the session. The device will start preheating, wait 20 seconds to inhale.
- Press the  button for 2 seconds again to turn off.

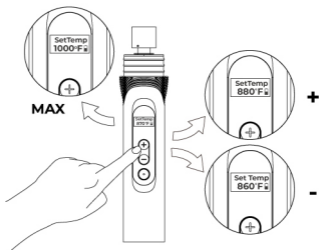

★ **Attention:**

- The device will go into standby when the session ends.
- The device will turn off automatically if no activities are detected for 10 minutes after turning on or in standby mode.
- Cleaning is recommended after each use.

TEMPERATURE SETTING

- Temperature range is from 450 - 1000 °F.
- To adjust temperature
 1. Ensure device is on. Press +/- to adjust temperature.
 2. Each temperature level differs 10 °F.
 3. Press \odot button twice continuously to start heating after the temperature is set.
- During the last 10 seconds of the session, the 15-second extended heating mode can be implemented by double pressing the "+" key.

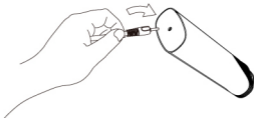

BATTERY & CHARGING

- To charge the device
 1. Connect one end of the charging cable to the charging base and the other end to the charging adapter.

2. Alternatively, connect one end of the charging cable directly to the device itself and the other end to the charging adapter.

- * Due to safety precautions, the product cannot be used while charging.
- **Battery Level**

The OLED display will show the current battery level when the device is on.

CLEANING: HEATING CHAMBER

- Cleaning is recommended after each use.
 1. Heat the chamber to remove any residues stuck on the walls of the chamber.
 2. Let chamber cool down to room temperature and unscrew from Cira base.

Do not handle if hot.

3. Submerge chamber in 90%+ isopropyl alcohol for over 20 minutes, use a cotton swab to clean gently. Do not use water as there will be mineral residuals that may affect the usage of the chambers.

Isopropyl alcohol is highly flammable. Let dry completely before using the device again.

CLEANING: GLASS COMPONENTS

- Carefully remove glass mouthpiece and cap from Cira base before cleaning.
 1. Once removed, soak the glass components in isopropyl alcohol.
 2. Rinse clean with water.
 3. Allow glass components to dry thoroughly before re-attaching to Cira base.

STORAGE

- Do not expose the device to direct sunlight, dust, moisture or mechanical shock.
- The device may no longer work properly if dropped.
- This product contains glass components. Do not place heavy loads on top or drop it.

SAFETY

- Do not attempt to disassemble or repair the device by yourself as damage or personal injury may occur.
- Keep body parts, clothing, etc. away from the heat source to prevent scalding or damage to personal property. To prevent scalding, when the device is heating, do not remove the glass mouthpiece or touch the heating chamber.
- Use only the power adapter provided with this device to charge it.
- Do not use the device while it is charging.
- Make sure your hands are dry before touching the charging device to prevent electric shock.
- The device is not recommended to use outdoor while it is raining.
- This device is not recommended for pregnant or breastfeeding women.
- If any abnormality is observed, please stop using immediately and contact a professional after-sales service technician.

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 1. Reorient or relocate the receiving antenna.
 2. Increase the separation between the equipment and receiver.
 3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

4. Consult the dealer or an experienced radio/TV technician for help.

- AUXO Cira is in compliance with RoHS and the council EMC 2014/30/EU.
- Environmentally friendly disposal:
You can help protect the environment! Please remember to respect local regulations, and hand in any electrical equipment you wish to dispose of at an appropriate waste disposal center.
- Additional Warranty Terms and Conditions

THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THIS CARD. AUXO DISCLAIMS AND EXCLUDES ANY IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, AFTER THE EXPIRATION OF 2 YEARS AFTER PURCHASE BY THE END USER. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

In no event will AUXO be liable for any special or consequential damages arising from the use of this product, nor for injury to any person, or any claim for damages arising from the use of this product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you.
