THE HATTERAS

DIFFERENCE

CUMARU SPREADER BAR

DURABLE SOUTHERN CYPRESS

OUR COMMITMENT

In 1971, we set out to deliver quality outdoor furniture made in the United States of America. From selecting the finest raw materials to handcrafting our products right here in the Carolinas, we continue to carry out our passion for creating luxury relaxation products for the modern consumer.

DURACORD ROPE

We Solution-dyed synthetic blend rope that balances the softness of cotton with the durability of polyester. This combination makes the rope All-Weather proof and resistant to rot, mold, and mildew.

DURABLE FABRICS

All-Weather. Solution-Dyed Synthetic Sunbrella and DuraCord Fabrics are resistant to rot, mold, and mildew.

OUR WOOD

Brazilian Teak hardwood, is 5 times denser than pine, cedar, and redwood. Ages naturally to a beautiful silver grey. Exclusive to Hatteras Hammocks.

ZINC PLATED HARDWARE

We plate all hanging hardware, with zinc to protect against rust and ensure an overall longer outdoor life.

DURACORD® ROPES

ZINC PLATED HARDWARE

SUNBRELLA® FABRIC

ROLLED RIM GROMMETS WITH SPUR WASHERS

One-of-a-kind grommet, when compared to telescoping grommets used by most of our competitors, that creates a more secure bond between fabric and ring knot.

ECO-FRIENDLY

Polyester fiberfill filling made from recycled soda bottles is found inside the hammock. The fiberfill is a nonabsorbent material allowing water to drain through and provide quick drying.

PROUDLY HANDCRAFTED IN THE CAROLINAS

Manufactured in the Carolinas using the finest parts and industry leading techniques.

*Proudly Handcrafted

HATTERAS
HAMMOCKS

The Hatteras story begins back in 1971, when a young Mr. Perkins was a buyer for the American Tobacco Company, which had him traveling often, all throughout the Southeast. Before one particular work trip out to his beloved Carolina beaches, his mother asked him if he'd pick her up one of those rope hammocks like you'd see sold all along the coast. As soon as Mr. P. found her one, he knew he had to buy another for himself. An avid woodworker with a true inventor's streak, he couldn't resist the idea of taking it apart, putting it back together, figuring out what made it work. How can I make an even better hammock than this one? So he pulled together some raw materials, started tinkering around with the design, substituting stronger rope, for instance, and heavier, safer chain. He experimented with everything, wasting nothing - he even tried using old tobacco-curing sticks as an early wood source for his hammock spreader bars.

Before he knew it, Mr. P. was a bona fide hammock-maker. He sold his early designs right out of the trunk of his old Toyota station wagon during later beach visits and work trips across the Southeast, up as far as Washington, D.C. "It was the perfect example of a hobby becoming a business," Mr. P. has often said. And he'll be the first to tell you that he really had no idea what he was getting himself into.

Soon enough, he couldn't keep up with the demand for his handcrafted hammocks. Family members pitched in - Hatteras CEO Walter R. Perkins III, for one, grew up making hammocks right alongside his father. Company legend has it that a young Walter, every bit as much the tinkerer as his old man, first showed Mr. P. how to tie a ring knot. By 1987, Hatteras Hammocks had blossomed into the world's top hammock producer, known for its humble and storied beginnings, unmatched designs,

innovative blending of handcrafting and state-of-the-art manufacturing processes, exceptional customer service and, yes, for plain and simply making one darn-fine hammock, and then always working to make the next one even better still.

Thank you for your desire to learn more about our products and company. We want to get to know more about your business and provide you with the information you need to succeed. Together, we can build a profitable program for your business.

Walter Reid Perkins III
CEO, Hatteras Hammocks and The Hammock Source
