The Berlin Gardens Difference.

1 Our Process

Located in Ohio's Amish country, Berlin Gardens pairs advanced machinery with traditional methods and skills handed down through generations.

2 Service

Making the customer happy isn't just something else we do — it's the foundation upon which everything else is built.

3 Design

From hidden fasteners to sleeker-lined chairs, we're constantly improving our design.

4 Lead Time

Our lead time is typically shorter than most of our competitors. Even during peak season, we deliver in a timely manner.

5 Quality

To us, quality means consistency. To the customer, this means holes line up for easy assembly, all components are hand-routed for exceptional smoothness and little details are not missed.

The best furniture uses the best materials.

Poly Lumber

At Berlin Gardens, all of our furniture is built using only the highest-grade poly lumber. Made from high-density polyethylene (HDPE) plastic, this durable material is the secret behind manufacturing low-maintenance furniture designed to last decades.

We use two types of poly in our furniture — both produced by leaders in the industry.

HDPE

High Density Polyethylene, HDPE, is recycled plastic lumber that has become a mainstay of the outdoor furniture industry. Its high strength-to-weight ratio and versatility make it an excellent choice for most poly furniture.

MGP

Marine Grade Poly is a denser alternative to HDPE. This premium marine-grade poly (MGP) can be fabricated to create a more customized furniture design with a thinner profile.

Premium Hardware

Chrome-Plated Fasteners

Unlike other poly furniture manufacturers, Berlin Gardens only uses chrome-plated stainless steel fasteners. These fasteners resist corrosion better than standard stainless steel — keeping your furniture free from unsightly rust stains.

Aluminum Frames

We use strong, welded aluminum frames to provide long-lasting support under tabletops and thicker furniture components. While our furniture is designed to keep most aluminum supports out of sight, those that are visible are powder coated to maintain an attractive, durable finish.

See how our premium poly stacks up against wood patio furniture:

	Wood	HDPE	MGP
Virtually maintenance-free ownership		●	●
Does not crack or split over time		●	●
UV-stabilized colors that resist fading		●	●
Withstands hot/cold climates and will not warp		●	●
Smooth, splinter-free surface		●	●
Not damaged by water or salt spray		●	●
Easy-to-clean surface that limits germs and bacterial growth		●	●
Dense and durable		●	●
Thinner profiles for sleeker furniture design			●
Dimensional lumber for classic design		●	

Go Green with Berlin Gardens

Your Berlin Gardens poly furniture offers more than just a great place to relax with friends and family. It also protects the environment. That's because our poly lumber is manufactured using 95% recycled content.

Furniture Care and Maintenance

Poly furniture is made from high-density polyethylene (HDPE), a recyclable plastic that never needs to be painted or stained. It will not rot or splinter, and contains added UV protection to resist fading.

Thanks to its resilient properties, most furniture only needs to be cleaned a few times per year. Light colors, such as white, may require more frequent cleaning to keep it looking new. To maintain the beauty of your furniture:

- Do not place flower pots or any items on furniture that will leave stains.
- Do not place hot items directly onto furniture to avoid melting.
- Wash furniture regularly with Berlin Gardens cleaners or non-abrasive soap and water.
- For deep cleaning, spray thoroughly with a non-abrasive cleaner, then scrub the furniture with a soft bristle brush and rinse with warm water.
- If needed, spray the furniture with a non-abrasive cleaner and wash it using a high-pressure washer. Keep the tip of your pressure washer 16" to 20" away from your furniture to avoid damaging the material.

All of our fasteners are made from stainless steel — most of which are chrome-plated and highly corrosion-resistant. However, in extreme conditions such as coastal areas, some corrosion may still occur. To ensure the longevity of your furniture and fasteners, we recommend regularly rinsing it with fresh water.

If properly cared for, you'll be able to relax in your poly furniture for years to come!

The warranty is effective starting on the date of purchase. At its option, Berlin Gardens will repair or replace this product without charge for materials and labor, providing our inspection indicates that an original defect exists. Should Berlin Gardens choose to replace the product, and the product is no longer available at the time the warranty service is required, a substitution of similar performance and equal or greater value will be made. Polyethylene is a synthetic product and may scratch, can fade when exposed to sunlight, or stain after prolonged contact with other substances, all of which are not covered in this warranty. Some expansion and contraction is to be expected during changes in humidity and temperature. The foregoing shall not be considered defects in materials or workmanship and are not covered under this warranty. Stainless steel fasteners are warranted not to fail structurally for the applicable warranty period. Stainless steel may rust in certain extreme conditions (such as coastal areas) if not maintained. This warranty does not cover rusting fasteners or structural failure due to rusting fasteners, damage caused by unauthorized service or repair, alteration of this product, abuse or misuse, normal wear and tear on materials, or any attempt to use the product in a manner or for a purpose other than for which it is customarily intended. This warranty also does not cover scratching or chipping of polyethylene; however, this warranty shall not limit any warranties made by the manufacturer for such items which may extend to you.

Berlin Gardens, LLC ("Berlin Gardens") extends the following warranty to the original purchaser of its outdoor fire pit. This warranty applies only to the original owner of the Product and is non transferable. The warranty is effective starting on the date of purchase.

Rusting that does not affect the structural integrity of the Stainless Steel Heat Barrier is not covered by this warranty. When not in use, covering a fire pit with a waterproof fire pit cover is recommended and may minimize but not eliminate the possibility of rust.

At its option, Berlin Gardens will repair or replace these products without charge for materials and labor, providing our inspection indicates that an original defect exists. Should Berlin Gardens choose to replace the product, and the product is no longer available at the time the warranty service is required, a substitution of similar performance and equal or greater value will be made.
