

TANGERINE SPRITZ

bright | citrusy | tropical

there's an orange grove by the ocean, a slice of florida heaven. tangerine spritz is a barefoot stroll through the grove, with the hint of orange blossom in the air, and grass between your toes. it's the breeze that found its way from the sea, then to the leaves, and finally to your face. this is the kit that reminds us to dream— of an orange grove by the sea, of a day at the beach, of the perfect escape— with a citrusy cocktail in hand.
