Unlock the love of learning.

Boost engagement and make learning fun!

Breakout EDU helps students develop skills in core subject areas through collaborative and active learning. With over 2,000 standards-aligned games, it's easy to make learning meaningful and fun. All games are designed to cultivate SEL and 4C skills, with many supporting both the acquisition and review of important standards, including CCSS and NGSS standards.

- Student Game Design Tool and Courses allow students to use knowledge gained in coursework to create their own game. Perfect as an assessment or exit ticket.
- Build 21st Century Learning and SEL Skills
- Safe for Schools & Students (COPPA/FERPA/Ed Law 2D Compliant)

“Breakout EDU is an engaging way for students to learn any content by collaboratively solving problems and completing challenges.”

- Johnathan Zimmerman
CCSD93 Director of Curriculum

The Engagement of an Escape Room in the Classroom

Breakout EDU turns any learning environment into the ultimate engaging experience where students are challenged to work together and solve complex academic puzzles.

Over 2,000 K-12 Standards-Aligned Games

Breakout EDU has content designed for learners of all ages and aligned to most academic topics. Breakout EDU games have a place in every classroom.

Perfect for 4Cs and SEL Skill Building

Breakout EDU games provide experiences for learners to work together and genuinely build 4C and SEL skills. Post-game reflection activities explore the collaborative process.
