# umety

Create your own purposeful, **immersive VR projects**

You and your students become content creators

Collaborate to solve problems

Apply critical and design thinking skills

Produce engaging VR presentations

It's as easy as 1, 2, 3!

Upload 360^0 images > Add 3D models & quiz > Use audio or sounds

01 Use existing 360^0 images and videos or capture your own
- Import content easily from any source including your own 360° camera

02 Build your project on any PC
- Add navigation hotspots, interactive 3D models, labels, audio, slideshows, PDFs, quizzes, and more!

03 View, edit, and share on your UmetyVR headsets
- Share projects online or offline
- Collaborative experience on a guided presentation

Creating VR Projects

What would you do if a fire started in the kitchen?
- ○ Run away from it
- ◉ Get the teacher to blow it out with a fire extinguisher
- ○ Stand there and hope nothing happens to you
- ○ Keep on cooking

umety

Support material

Online teacher resources include:

Storyboarding guide

Tips for capturing content

Demo projects & more

Create **VR experiences**

Design tours

Add **audio**

Add **3D models** and more

All VR projects can be transferred directly to a **umety VR headset** for immediate sharing and viewing in virtual reality.

Enhance digital literacy. Encourage creativity. Inspire enquiring minds
