WE ARE THE MANUFACTURER...

CAPABILITIES:

- » GREENSAND FOUNDRY OPERATION
 - IN-HOUSE CASTING FOR QUALITY CONTROL
 - NO BAKE / SHELL & AIRSET FOUNDRY OPERATIONS
- » CNC MACHINING / ROUTER
- » POWDER COAT & WET COAT PAINTING
- » CERTIFIED WELDING & FABRICATION
- » VINYL PRINTING, CUTTING & APPLICATION SHOP
- » IN-STOCK COMPONENTS
- » LARGE INVENTORY OF RAW MATERIAL

WARRANTY

Signature Streetscapes products are warranted to be free from defects in both material and workmanship for one year. We will replace or repair all defective products upon return freight prepaid. Our warranty does not cover costs associated with labor for installation or products damaged due to improper use or installation.

LEAD-TIMES

Most of our products are custom-built to order, while others are standard components in-stock ready for immediate shipment. We pride ourselves on scheduling accurate lead times and meeting those commitments for our customers.

DESIGN SERVICES

Our in-house design team is here to assist you. Most of our design services are offered free of charge to provide you with accurate specification drawings for approval by your committee or board.

SHIPPING

Our shipping department doesn't consider the job done until you receive your project in good condition. We are meticulous when it comes to the details in how your order is packaged, including all hardware and instructions included on the order. When it comes to logistics we leverage our volume to deliver you the best possible freight and shipping costs in the industry. A significant amount of finished product is stored in our warehouse so we can fulfill your order in the shortest possible time.

POSTS

ROUND

DECORATIVE POSTS

Signature Streetscapes stocks all our standard post lengths and profiles in a **Tiger Drylac Bengal Gloss Black** powder-coat finish. We also inventory a large amount of mill finish product and can cut custom lengths to meet your job specification as needed.

Custom powder-coat colors are available upon request, **SEE PAGE 7** for finish options or call us for more information.

**VOLUME DISCOUNTS AVAILABLE, CALL FOR PRICING.
1-800-705-1446**

IMPORTANT!

POST LENGTHS

Choose your post length carefully. Be sure to include enough room for all sign/lighting components **including a minimum direct burial depth of 24"-30"**

***NOTE:**
Posts 13' 6" and over require special packaging and may be subject to additional handling and shipping charges. Call for details.

BASES

FOR 3" POSTS

Signature Streetscapes manufactures cast aluminum pole bases to fit both 3" & 4" diameter posts. Each base is coated with a durable powder-coat finish and uses stainless steel hardware for securing to the post.

BASE TYPES

Signature Streetscapes casts a variety of decorative bases in two different styles, "Split" and "Solid".

SPLIT BASE:

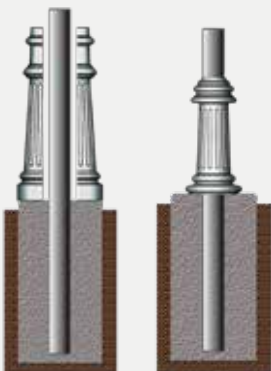

Easy to install, these bases wrap around new or existing poles and lock together with stainless steel fasteners.

SOLID BASE:

Slides over the top of pole and rests on the ground or concrete pad. Bases are locked to the pole with stainless steel set screws.

**INSTALLATION
METHODS**

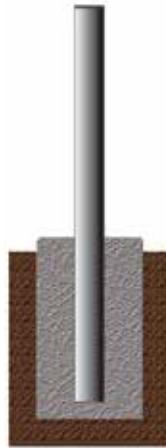

**BREAKAWAY
ANCHORS & BOLTS**

Tapco V-Loc™ Anchors and Dent Breakaway Bolts® are for use in clear zones to make tubing breakaway compliant.

DETAILS & PRICING BELOW

DIRECT BURIAL POSTS

Designed for use with concrete installation. We recommend 24" of post burial. Size and depth of concrete varies according to local soil conditions. Concrete foundations should extend above ground level and be larger in diameter than the base, to prevent damage and ensure the finish will be protected for years to come.

SURFACE MOUNT POSTS

Designed to be used when pole is mounted above grade and fastened with anchors or "J-bolts" in concrete. Fasteners are cast integral with foundation. Call ahead and we can send a hole placement template to match the bolt patterns on our surface mounted bases for use when pouring concrete footers.

SEE PAGE 68

**BREAKAWAY
ANCHORS &
BOLTS**

TAPCO V-LOC™

State-of-the-art, reusable breakaway anchors, allow you to replace posts in literally minutes. It includes V-Loc™ breakaway post anchor and wedge.

- Installed in concrete, asphalt or soil safely by 1 person in minutes by hand or power driver
- Simply insert your post and drive in the patented wedge, locking the post into the anchor with no additional hardware
- No concrete required in soil
- Simple, solid and safe
- The only reusable, flush-to-the-ground breakaway anchor

DENT BREAKAWAY BOLTS®

Any system using the bolts meets NCHRP 350, including the Omni direction criteria. To date, all reported impacts have favorable results.

- **NO TORQUE REQUIREMENT**
 - Reduces the sensitivity of the installation
 - Eliminates periodic torque inspections
- Base-plates can be designed with holes instead of more expensive notches

BREAKAWAY

i BREAKAWAY COMPLIANCE

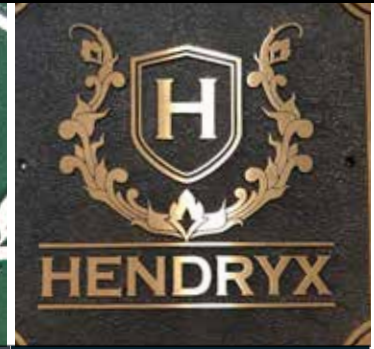

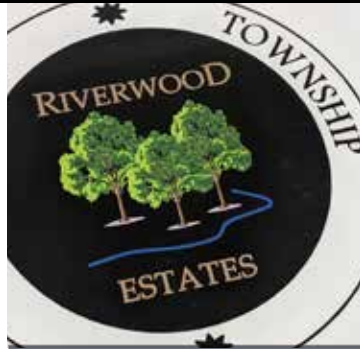

3" and 4" smooth aluminum poles with a 0.12" wall thickness are tested and approved by FHWA with no special adapter/breakaway device required.

Our fluted aluminum round and square aluminum poles have not been tested, but breakaway anchors are available for 3" and 4" diameter, and 3" and 4" square poles. Testing for these devices has only

been completed using steel pole material, not aluminum. Installation instructions are available by email link to a YouTube video presentation. If there is any concern about using aluminum poles for your project, contacting a local traffic engineer for approval is highly recommended prior to purchasing these products.

PRINTED VINYL SIGNS

1

PROTECTIVE CLEAR OVERLAY

3M™ TM SERIES ELECTROCUT™ FILM

3M™ ElectroCut™ Film is a transparent, acrylic film with pressure sensitive adhesive for application over reflective sheeting (HIP & DG3). This material is highly transparent and gives equal or better retroreflective performance than sheetings screened with transparent inks.

2

VINYL SHEETING

REFLECTIVE

3M HIP HIGH INTENSITY PRISMATIC

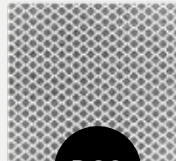

Meets middle grade performance standards and ASTM D4956 Type IV. Used for reflective traffic and road signs. Performance warranted for up to 10 years.

HIP

DG - DIAMOND GRADE™ DG3

Meets ASTM D4956 Type XI. Reflects almost 2x the amount of light back to its source as High Intensity Prismatic sheeting. Performance warranted for up to 12 years.

DG3

NON-REFLECTIVE

ORACAL® 651 INTERMEDIATE CALENDERED VINYL FILM

2.5 mil, calendered PVC film. 3-6 Year Durability. Gloss finish. Used for Building Signs, Vehicle Graphics, Window Graphics and Decals.

3

ALUMINUM BASE

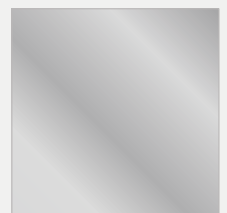

MAX METAL ALUMINUM

MAXMETAL is an aluminum composite material comprised of two, pre-painted 0.15mm aluminum panels bonded to a solid polyethylene core. It's lighter in weight and more durable than both MDO and solid aluminum panels, plus it resists scratching and denting better than wood panels. Can be cut to any shape and sizes up to 4' x 8'.

STANDARD SOLID ALUMINUM BLANKS

Standard Solid Aluminum Blanks are manufactured in the USA. They are 0.080" thick, traffic grade – alodine treated bare aluminum alloy: 5052-H38. The blanks come in pre-cut sizes with pre-drilled holes and radius corners in accordance with the Federal Standard Highway Signs Manual.

BLADE TRIMS**

36" x 6"
Classic Trim

Sign trims are designed to hold reflective vinyl street blades in a variety of sizes.* Each trim is made from a combination of extruded and cast aluminum materials with a decorative profile for a strong and attractive look. Sign trims are a cost effective way to display your street name signs with a frame while maintaining reflectivity requirements. Please call our customer service department for more information.

1-800-705-1446

* Street blade aluminum blank has a corner radius of 0.75" and thickness is 0.063" before vinyl is applied. Trim is not guaranteed to fit street blades made by other manufacturers.

PADDLE TRIMS & INSERTS

Paddle Trims are a compliment to the Classic Blade Trims and customizable with a variety of options including custom full color logos. Paddle Trims are designed to give the appearance that the street blade passes through the post. Signature Streetscapes recommends a single Paddle Trim for each pole installation when being used with Classic Blade Trims. Graphics are latex printed on durable 3M exterior vinyl and applied to an aluminum substrate.

REFLECTIVE STREET BLADES

All Signature Streetscapes aluminum street signs are manufactured per U.S. Bureau of Public Roads Standards and are in accordance with the Federal Standard Highway Signs Manual. Our aluminum substrates are chemically treated to lengthen the life and add weather resistance.

**Most common sizes*
See our *Classic Trims*. See *trims* on page 16-17.

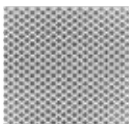

STREET SIGNS - REFLECTIVE BLADES

HIGH INTENSITY PRISMATIC

- High Intensity reflective sheeting**
- Best for all applications
 - Highly reflective at wide angles to approaching traffic
 - More durable than engineer grade
- Estimated Lifespan:** 8 to 10 years
Reflectivity: Meets MUTCD Guidelines

DIAMOND GRADE™ DG3

- Full cube prismatic reflective sheeting**
- Best for all applications
 - Delivers optimal performance at all sign distances, as well as all weather conditions
- Estimated Lifespan:** 10 to 12 years
Reflectivity: Proposed ASTM Type XI

CAST BLADE ACCESSORIES	ITEM#	DESCRIPTION	PRICE
 	CA-BKT	Mounting Bracket for Cast Signs Welded to Square or Round Posts, or Flat Surfaces. Painted same color as the background of the blade.	Included in Cast Sign Pricing on previous page
	CA-SCROLL	Weld any of our scrolls to your cast street blade. See page 20 for scroll options.	Add \$55 to Cast Sign Pricing on previous page
	GLO	Glo-Bead is a paint additive containing thousands of small glass spheres, designed to reflect lots of light, even at night. This creates a reflective* street name on cast blades. <i>*Reflectivity is not MUTCD Compliant</i>	Add \$25 to Cast Sign Pricing on previous page

REFLECTIVITY STANDARDS NOTICE

Check with your local authority for approval of reflectivity standards before ordering.

SIGN FRAMES

EXTRUDED ALUMINUM

All Sign Frames
Made in Muskegon, MI USA

ENHANCE AND PROTECT YOUR STREET AND TRAFFIC SIGNS WITH OUR DIMENSIONAL SIGN FRAMES.

Manufactured to high quality standards for durability, our sign frames add elegance and beauty to an otherwise mundane traffic sign. We start with precision, miter-cut, custom aluminum extrusion, welded for maximum strength. Once polished and cleaned, powder-coat finishes are added to complete the process.

Choose from many standard sizes and shapes with gloss black powder coat, as well as custom sizes and finishes. We control the fabrication process from start to finish, which allows for the industry's fastest lead time and highest quality product.

**CUSTOM SIZES AVAILABLE, CALL FOR PRICING.

SIGN FRAMES

“FAUX HALO”

An alternative option to a dimensional frame, a faux halo provides a 2" gloss black trim around the sign. Available in many standard shapes and sizes, faux halos can also be custom router-cut from MAX Metal™, a versatile sign substrate which can be used in a variety of applications. Faux halos include (2) 3/8" mounting holes that correspond with standard traffic sign pre-punched holes.

HOW MANY ACCESSIBLE PARKING SPACES ARE NEEDED?

The minimum number of accessible parking spaces required depends on the total number of parking spaces in the lot, as seen in the table to the right. Furthermore, one of every six accessible parking spaces, or fraction of six, must be "van-accessible." For example: A parking lot with 400 total spaces needs eight accessible spaces, and two of those eight spaces must be van-accessible.

For more information visit: ada.gov

STATE SPECIFIC ADA PARKING SIGNS

While most states use the **Federal R7-8 Reserved Parking Sign** to designate parking spaces reserved for persons with disabilities, other states have developed their own specific designs. Sometimes states will require the Federal sign used with an added state-specific penalty or fine sign.

It is always a good idea to consult with your local municipal, ADA, or building code compliance authority when purchasing ADA parking signs.

For more information visit: ada.gov

PLACEMENT OF PARKING, STOPPING, AND STANDING SIGNS

MUTCD Section 2B.48

When signs with arrows are used to indicate the extent of the restricted zones, the signs should be set at an angle of no less than 30 degrees or more than 45 degrees with the line of traffic flow in order to be visible to approaching traffic.

If the zone is unusually long, signs showing a double arrow should be used at intermediate points within the zone.

STANDARD:

If the signs are mounted at an angle of 90 degrees to the curb line, two signs shall be mounted back to back at the transition point between two parking zones, each with an appended **THIS SIDE OF SIGN (R7-202P)** supplemental plaque. **SEE PAGE 36**

REFLECTIVE VINYL MATERIALS

We offer two options for reflective street, traffic and parking signs including DG (Diamond Grade) and HIP (High Intensity Prismatic). Both meet MUTCD guidelines.

SEE PAGE 14

Let us design it for you!

CUSTOM PARKING SIGNS

Signature Streetscapes has in-house capabilities to print full color UV resistant vinyl. Our wide format latex and ink jet printers produce high quality exterior grade vinyl signs that are rated for a minimum of 5 years of outdoor use.

TRAFFIC SIGNS

SCHOOL

SCHOOL SAFETY SIGNAGE

School zone signs and pavement markings provide important information to drivers to improve safety within the school zone.

The MUTCD sets standards for controlling traffic in school areas, although many states and local jurisdictions provide additional guidance.

SCHOOL SIGN REQUIREMENTS

School warning signs are required to have fluorescent yellow-green backgrounds

According to MUTCD 7B:07:

School Warning signs, including the "school" portion of the school speed limit (S5-1) sign and including any supplemental plaques used in

association with these warning signs, shall have a fluorescent yellow-green background with a black legend and border unless otherwise provided in {the MUTCD} for a specific sign.

RECYCLED PLASTIC

ENGRAVED HDPE

Signs are made of virgin and Recycled HDPE (High Density Polyethylene) material in 1/2" or 3/4" thickness, depending on the overall size. The durable textured finish resists scratches and marring. HDPE material is UV stabilized to resist deterioration in harsh outdoor environments. In addition, HDPE is impact resistant, and will not chip or dent like other materials.

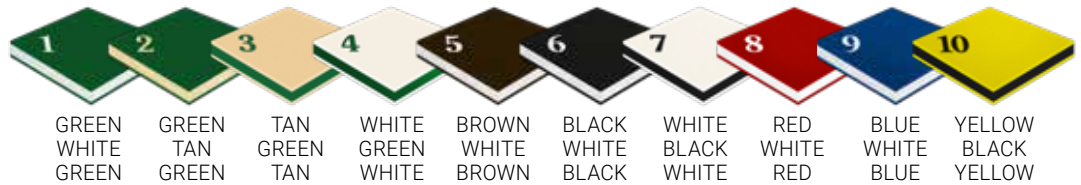

The top layer of the material is removed by a router, exposing the contrasting core color.

COLOR OPTIONS:

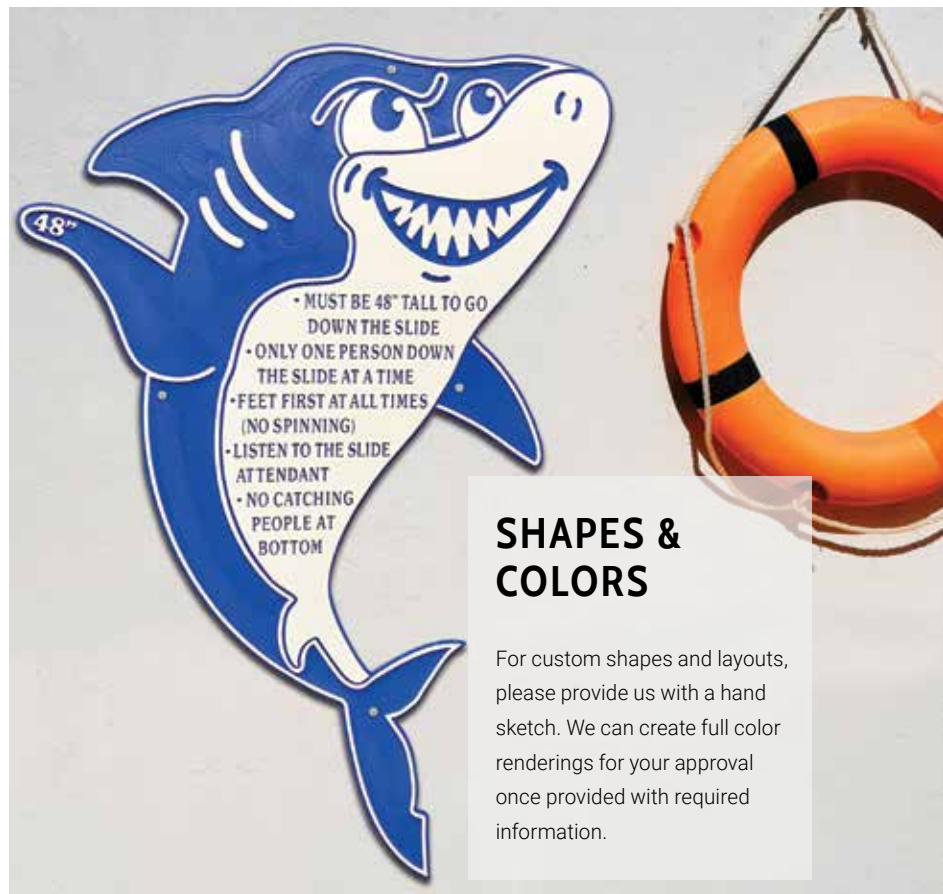

Choose from our 10 standard colors below.

IT PAYS TO BE GREEN

Our recycled plastic HDPE signs made from a blend of virgin and recycled polymers (milk jugs, shampoo bottles, etc). Our HDPE has also been proven to last over 20 years in harsh outdoor environments.

- Non-polluting
- No acids or harsh chemicals for cleaning
- Completely recyclable
- Made from FDA-approved polymers
- Formaldehyde-free

SHAPES & COLORS

For custom shapes and layouts, please provide us with a hand sketch. We can create full color renderings for your approval once provided with required information.

CUSTOM CAST PLAQUES

HOW TO ORDER CUSTOM PLAQUES

Need a plaque for a special occasion, dedication, memorial, or custom application? We can assist you through the design process including helping you choose the material, size and layout that best fits your needs.

Customers are provided with renderings of their plaque to view before it is made. Our photo-polymer pattern process creates the custom designed pattern directly from the computer approval drawing, eliminating the possibility of misspellings or setup errors. This also allows us to incorporate custom graphics, special fonts, logos or other custom characters at no additional charge.

We manufacture and finish all plaques in house allowing us to offer our customer **FACTORY-DIRECT PRICING**. Call us for details or visit our website for details on ordering custom plaques.

CUSTOM PLAQUE OPTIONS

1 What size plaque do you need?

Our standard sizes are shown on the following page. We can cast your plaque in any custom size or shape requested. Call us with your requests and we will provide pricing and approval drawings upon request.

2 What border style and mounting do you prefer?

Beveled borders (*) will increase the price due to additional finish requirements.

3 Cast Bronze or Aluminum?

Each material has distinct characteristics and advantages. Call our customer service department for assistance determining which material will work best for your application.

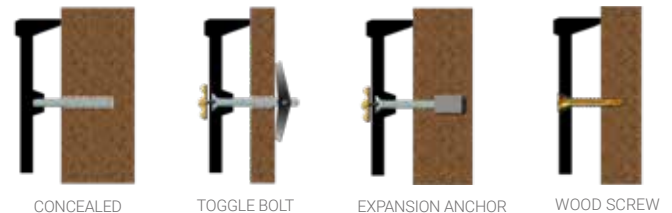

4 Provide us with text copy, special characters, logos & layout instructions.

Contact our customer service department for help ordering your custom plaque. **800-705-1446**

STANDARD BORDER OPTIONS

STANDARD MOUNTING OPTIONS

CUSTOM LOGO PAINTING

We can hand paint your logo for a small additional charge. Let us know the Pantone Colors you need to match and we will take care of the rest.

NOTE: Color matching charges may apply

BAS	\$ 2,500.00

**FINISHES FOR
CAST PLAQUES**

WET-COAT & POLISH

We finish all of our products using the highest quality materials, equipment and processes in the industry. Over the years we have perfected our process with help from Matthews Paint Company and PPG. Our signs and plaques have undergone rigorous testing in scratch, solvent and salt spray testing facilities.

We are confident you will not find a better coating system that allows for such a diverse selection of colors (Pantone Matching System) available in the sign and marker industry. We do it right, without cutting corners or using inferior coatings. Visit our website to learn all the details on how your signage is being finished, care and maintenance instructions and more.

SURFACE MOUNT & LIGHT POSTS

Signature Streetscapes aluminum surface mounted poles are constructed by combining solid cast aluminum "Bolt Bases" and our extruded aluminum posts. Our certified welders fabricate each light pole to order before applying a durable powder-coat finish. Each pole is custom built to order and can be fitted with a variety of options including electrical access doors, photo controls, decorative tenons and more.

Things to Consider When Building your Post

- » Access Door
- » Decorative Base (PAGE 8)
- » Reducer Tenon
- » Photo Control / Outlet
- » J-Bolts for Mounting
- » Grounding Rod

ACCESS DOORS

Access doors are only included in the Lighting post pricing (LPB Items). Surface mount posts (SMB Items) do not include an access door.

***NOTE:**

Posts 13' 6" and over require special packaging and may be subject to additional handling and shipping charges. Call for details.

GLOBE MATERIALS

POLYCARBONATE

Recommended for use with High Intensity Discharge lamps. Polycarbonate has a high impact resistance and durability, making it less likely to be damaged or vandalized. Over time, globes will become yellowed compared to acrylic.

ACRYLIC - IMPACT MODIFIED

Unsurpassed resistance to weathering and aging. Acrylic has an exceptional brilliance, which does not diminish even after prolonged use. Globes are made from a harder material which makes them more prone to damage or vandalism compared to polycarbonate.
