- Sending the diffusers back without a permit from Aroma360

ASSEMBLING THE ISK

****CAUTION: TWO PEOPLE ARE REQUIRED FOR ASSEMBLY****

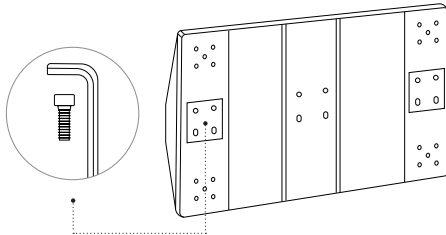

Step 1

Unbox your new scenting device. Do not remove the foam bump protection on the unit.

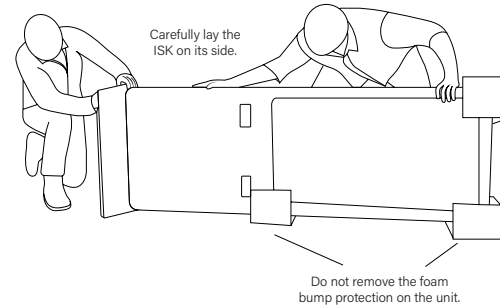

Step 3

While the ISK is being held on its side by one person, the second person will need to attach the base-stand to the bottom of the ISK. Secure the base-stand by using all 12 Socket Cap Screw with the Allen Key provided.

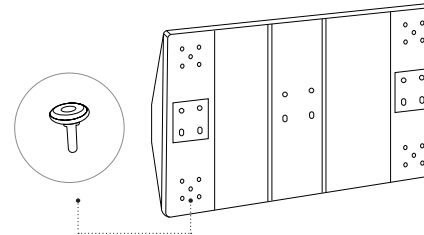

Step 2

Carefully lay the ISK on its side.

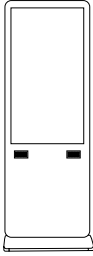

Step 4

Attach the Adjustable Level Shoe in the 4 holes at the bottom corners of the base-stand.

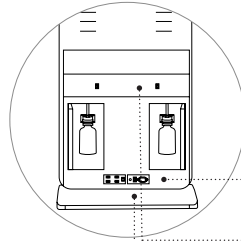

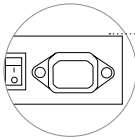

Step 5

Once the base-stand is securely attached to the unit, carefully lift the ISK to an upright position.

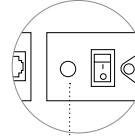

Step 7

Plug the unit to the 100V~120V - 15~20A outlet with the provided power cord.

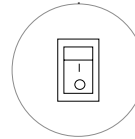

Step 6

Attach the Wi-Fi Antenna to Wireless Port, located on the lower back of the unit.

Step 8

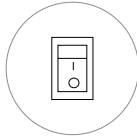

Switch the power to "I" to turn on the bottom of the unit.

STARTING-UP THE ISK

Step 1

Switch the main power to "I" at the lower back panel of the unit to turn on the ISK and wait for the unit load.

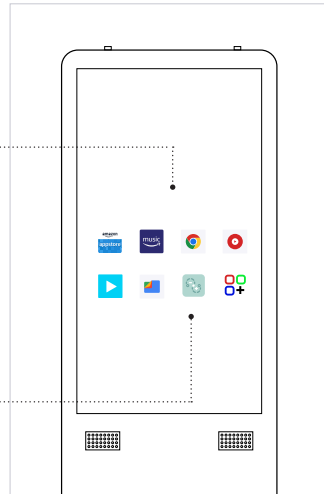

Step 3

Once loading is completed, essential widgets will be displayed on screen.

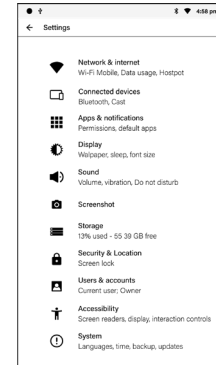

Step 4

Select the "Apps" icon to connect the ISK to the Network, and then click the **Settings** option.

Step 2

Select **Network & Internet** and choose your preferred Wi-Fi Network.

Step 5

Once connected, you are now ready to explore and experience the ISK!

ADDING YOUR AROMA360 FRAGRANCE OIL

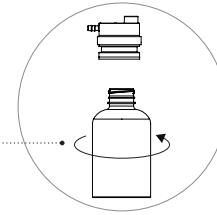

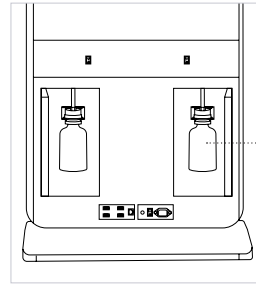

Step 1

Unlock the panels with the key provided.

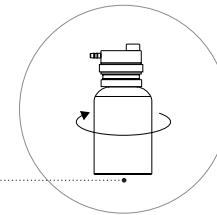

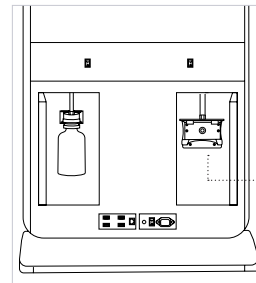

Step 2

Open the panels (swivel doors). Detach the 500ml bottle from the white bracket holder. Unscrew the 500mL bottle, fill the bottle with your preferred Aroma360 fragrance oil.

Step 3

Securely screw the bottle. Place the 500mL bottle back on the white bracket holder, and ensure the nozzle is pushed in its socket. Close the panels and lock the doors.

Your mobile device app is a cloud-based app that lets you control your Scent Diffusion remotely. Just make sure the following is done:

- ISK is connected to the Internet
- ISK is logged in to the "Aroma-Link" app
- Your mobile device has data or is connected to the internet
- Your mobile device installed the "Aroma-Link" app
- Your mobile device is logged in with the same credentials used on the "Aroma-Link" app

CAUTION

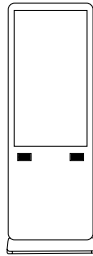

Step 1

Please do not add water to the aroma oils. Pour the undiluted aroma into the empty bottle that is included in your unit.

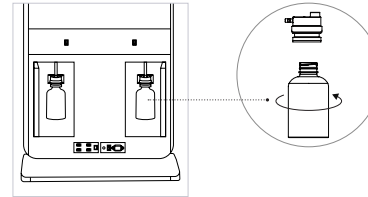

Step 3

Keep the diffuser in an upright position (not tilted or on its side) or leakage and damage may occur.

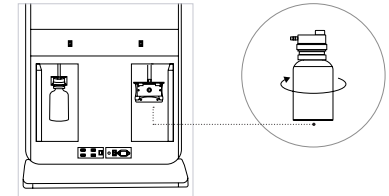

Step 2

Be sure to remove the aroma oils before transporting the diffuser. Failure to do so will damage the unit.

Step 4

Ensure the aroma oil bottle is properly aligned and tightly sealed or leakage may occur.

Step 5

Do not attempt to disassemble the unit. If there are any issues with the unit, contact support@aroma360.com

Step 6

For optimal performance, clean the unit by running alcohol through the diffuser for 15-30 minutes every 2 months.
