NATURAL. RESPONSIBLE. SUSTAINABLE.

There's just no substitute for real wood. From the way it looks and feels to the way it can be stained, painted and polished to create a myriad of finishes. It's a precious natural resource that requires careful management if it's going to be around for generations to come.

We're committed to looking after the environment. We use genuine hand-matched grains throughout which includes all veneers, mouldings, lippings and inlays – guaranteeing you a premium quality end product.

We work closely with our vendors to ensure every log we receive from responsible forestry practices and can be traced back to its point of origin by following FSC regulations.

In addition, ISO 9001:2015 accreditation ensures our management systems are designed in conjunction with environmental considerations.

Our environment matters, to us and to our customers – our ultimate aim is to create fully carbon neutral environment, not too distant future.

Performance and specification

We've dedicated an incredible amount of time and effort to ensure the products we supply are the best in their class. Many products have been assessed by independent testing organizations to ensure they can withstand the rigours of everyday life. We call it the 'demonstrable difference' and this is further backed up by the guarantees we provide.

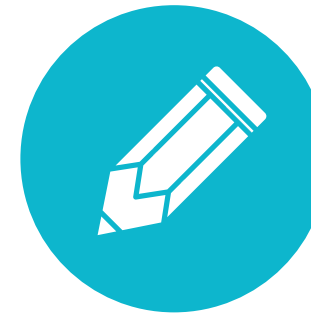

BESPOKE SERVICE

Our bespoke service offers a solution for non-standard sized doors.

Our bespoke service is available on:
All Solid Doors, Panel Doors, Grooved Doors and Veneer Doors.

HOW TO CREATE YOUR OWN BESPOKE DOOR

STEP 01

Submit your enquiry.

STEP 02

A CAD drawing is produced for sign off.

STEP 03

Your bespoke doors are manufactured.

STEP 04

Your doors are delivered to you.

Delivery from signing off the drawing is typically 3-4 weeks (approx).

WHAT OUR CLIENT SAY

“

Spirit became part of our team delivering a value for money service, contributing to the success of a large and unique project which has transformed our place of work and our customer experience.

CM-PAK, ZONG

”

“

Working with the Spirit team has been a professional and creative experience. Their expert knowledge of our industry and what our specific needs and requirements were for each, very different, office space was outstanding. The after sales service provided has been above and beyond expectation.

BAHRIA TOWN

”

“

The team at Spirit are fun to work with but are always focused on the end result and will challenge to ensure you get the desired outcome for design, price and quality of project delivery.

PAK-TELECOM, UFONE

”

“

Spirit team is professional and because their expert knowledge they very well figured out our specific needs and requirements. The after sales service provided has been above and beyond expectation.

SECP, ISLAMABAD

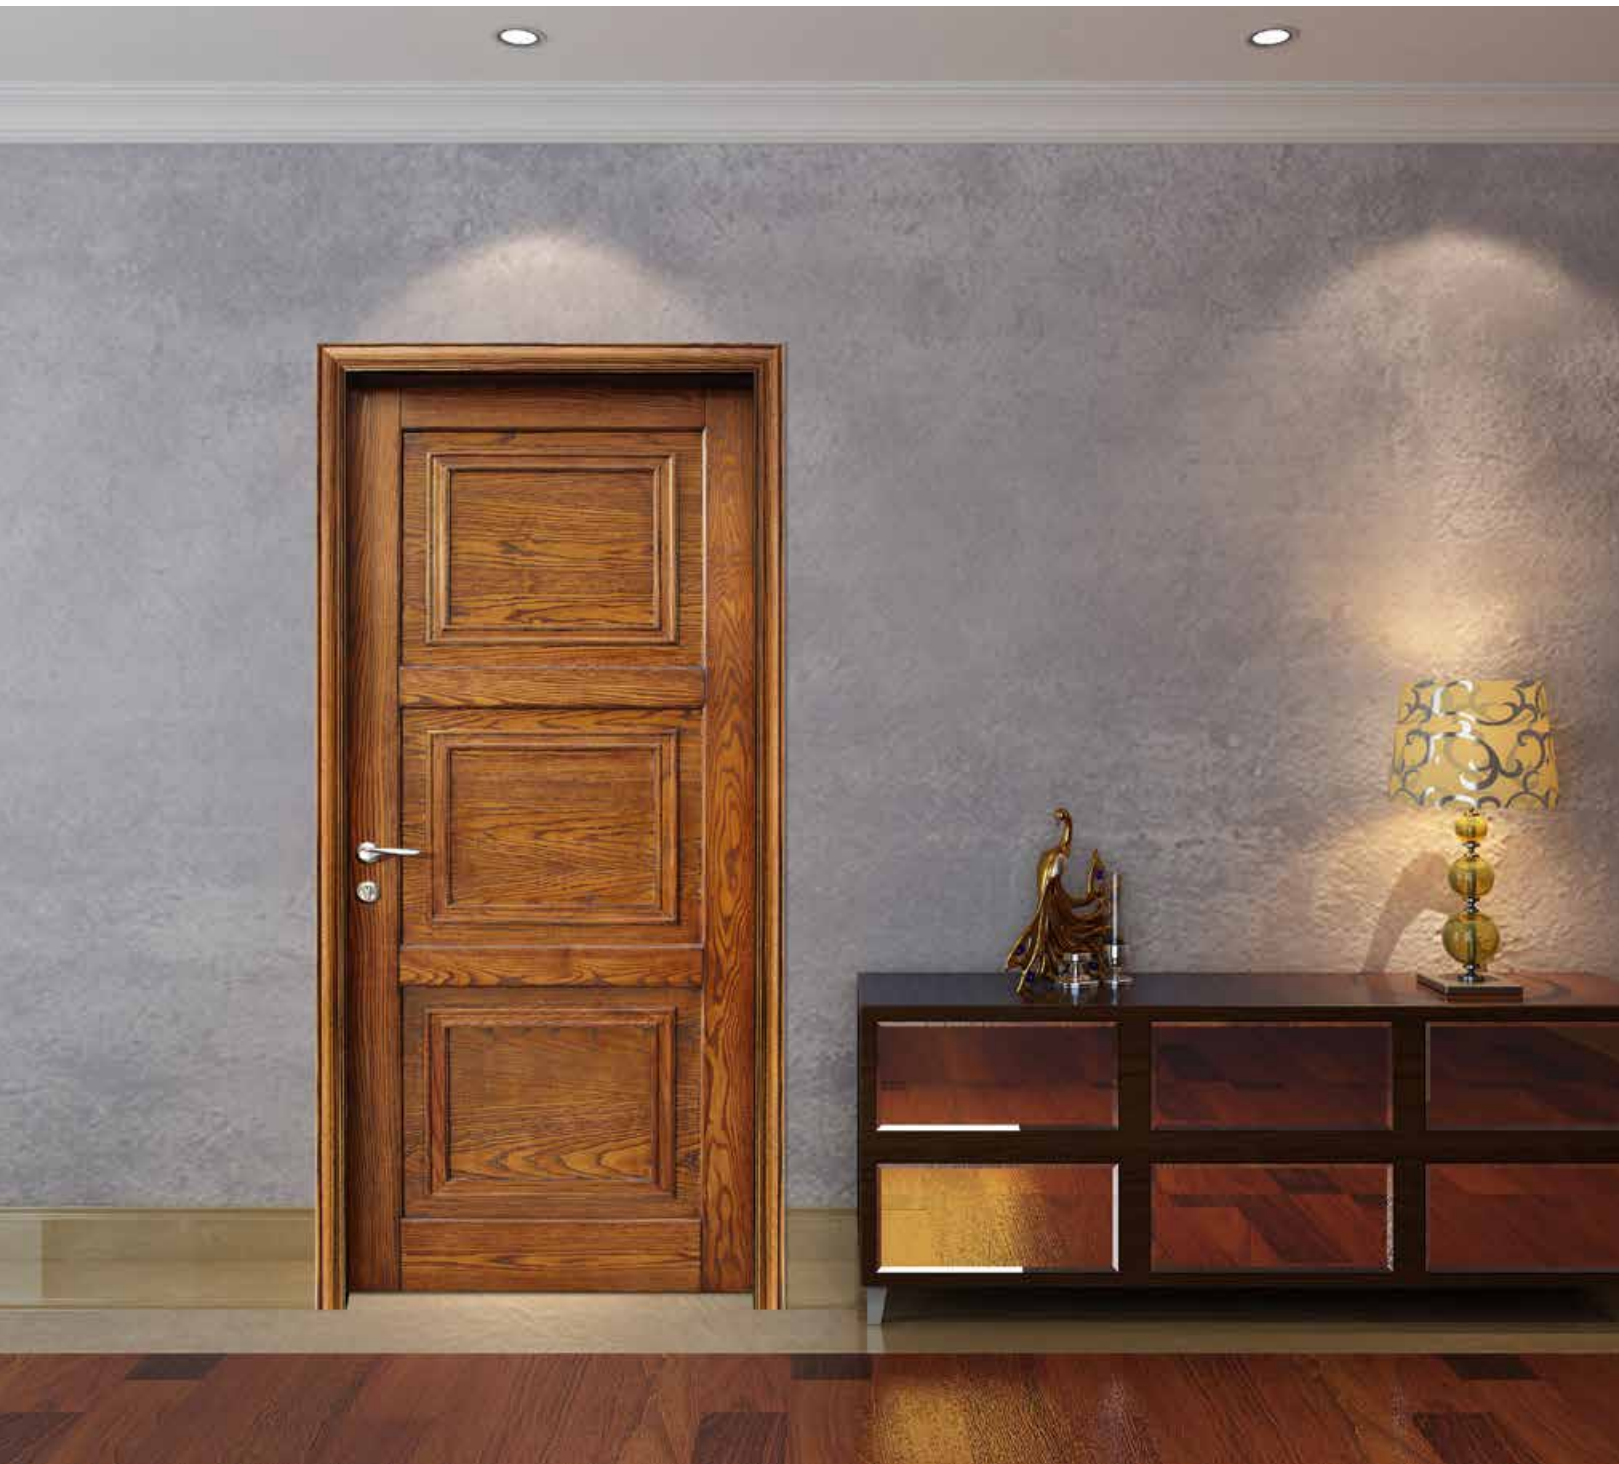

”

SPECIES

ASH

Ash is a tough hardwood which is known for its excellent bending abilities. It is primarily used for bent pieces of furniture. Ash is light brown in color with a straight grain.

POLISH

BEECH

Beech is a hard, strong and heavy wood. It has a fine, tight grain and even texture. Beech wood is very light in color and has a high shock resistance. With its smooth finish it is a great wood to polish.

MAHOGANY

Mahogany is an expensive hardwood and varies in color from a medium brown to a deep red brown, depending on its age. It is a very traditional, versatile and popular type of wood. It is also a popular choice for use on veneers.

OAK

Oak is a very popular wood, it is very hard wearing and heavy. It is known for having lovely open wood grain markings. Oak can be in two shades; white oak, which is grey/brown in color or red oak which is very similar but with a prominent reddish tint.
