TASK CHAIRS

If you're constantly navigating your workspace - answering a call one minute while rifling through a file drawer the next - a task chair may be the solution for you. Ideally suited for busy multitaskers, task chairs include casters that provide smooth mobility and feature a low-back style that provides essential back support while accommodating movement. Don't worry, these low-back chairs don't skimp on comfort. Like their executive cousins, task chairs often feature pneumatic height adjustment along with padded seats, armrests and backrests. Thus Choose a task chair help you get the job done.

BAR STOOLS

Bar stools are a type of tall chair, often with a foot rest to support the feet. The height and narrowness of bar stools makes them suitable for use at bars and high tables in pubs or bars. bar stools are also becoming more popular in homes, usually placed at the modern kitchen counter. Bar stools are available in varied styles. As well, bar stools allow for a higher view when eating, drinking, or socializing on a counter.
