## FACE MASK KLH914

Model No: KF94

### LAYERS:

The 1st outer layer provides flexibility and the first defense to particulates, the 2nd and 3rd additional filter layers keep the mask's firm shape and continue to filter particles. The 4th inner layer is designed for low irritation and extra softness for comfortability.

### 3-D DESIGN:

The 3D structure provides room for breathing so that it doesn't touch the mouth and the design is created to fit on the facial line in order to help with extended periods of use.

### LIGHT WEIGHT:

Super light weighted ear-bands are made super soft to reduce any kind of strain or tugging after long durations of wear. They're easily adjustable also to loosen or tighten whenever needed.

### ANTI-FOG:

The nose clip inside each mask not only helps keep the mask situated nicely on your face, but also helps to minimize air leakage and the possibility of fogging up eyeglasses.

**Elastic ear loops making itself comfortable to wear**  
**99% BFE/PPE (Bacterial/Particle filtration efficiency)**  
**It is not washable**

### HOW TO USE:

- Place mask over nose and mouth
- Place each cord around your ears
- Adjust the nose clip for the best fit
- Pull the edge of the mask up and down to ensure there is a tight fit
