

# 30ct. 750mg CBD Full Spectrum Softgels

#### **INDEPENDENT LAB REPORTS**

At **HIGH FALLS HEMP NY**, our mission is to provide you with premium products and education. Lab results help you ensure that the money you are spending on a CBD product contains the amount of CBD that's advertised. Third party lab testing means that we send our products to an independent company to test CBD concentration, and to ensure that there are no traces of pesticides, residual solvents, biological contaminants or heavy metals. Our pledge to you is our complete transparency about what you are putting in and on your body. Natural alternative wellness solutions to feed your mind, body, and soul. This report validates that we are providing you with the highest and purest quality product possible

#### **PLANT TESTING**

Our Softgels begin their life at our partner's farm in Colorado, a licensed hemp grower to ensure that the hemp meets all the state and federal compliance requirements.

#### **EXTRACTION TESTING**

Once all the crops are stripped and stored in a climate controlled facility, they are extracted into full spectrum CBD distillate (FSD) After extraction, our FSD is again tested to meet all state and federal requirements to ensure that the FSD is free of heavy metals, pesticide residual solvent

#### **PRODUCT TESTING**

After all the hard work of cultivating and extracting, the softgels are then formulated by our cGMP certified partner. To assure you are receiving the purest CBD products, our finished goods are again sent out to an independent lab to ensure they meet the potency and safety panels , and other requirements of all state and Federal agencies, consistent with what is on the label. The lab report being shown here is that of the finish
