About Us

Donegal Bees was founded in 2013 by Thomas Ellis. Thomas began by making CDB hives in a small shed for some neighbours and friends, and over time realized that was quite expensive for the average beekeeper to purchase quality beehives and beekeeping equipment in Ireland. It was then the idea Donegal Bees was born. Donegal Bees is now co-owned and directed by Thomas Ellis and Áine Curran. Áine joined the company in 2015 with extensive experience in customer service, accounting, and office management/systems. Our goal is to make beekeeping more affordable for everyone in order to sustain beekeeping culture in Ireland as it is so vitally important for our environment. We are also passionate about our environment and our bees, especially the conservation of the Native Irish Black Bee.

In 2022, we are continuing to provide you our full range of high-quality beehives and equipment, and have added a number of new products to our catalogue. Our foundation machine allows us to supply our customers with Irish made foundation sheets, and our excellent Wax Exchange service gives customers the opportunity to exchange their raw beeswax for our foundation sheets, both wired and unwired. We also offer a Wax Conversion service – if you or a collaboration of beekeepers have 500lbs (224kg) or more of beeswax, we can convert it into foundation, guaranteeing that you are receiving your own beeswax back for peace of mind. (See Pages 16 & 17 for more information.)

We have also expanded our range to include Irish Wildflower Beeswax Candles and Bee Meadow Seed Mixes, as well as gift packs and garden furniture. For further details or if you have any queries, please do not hesitate to contact the office and we will be more than happy to help!

Note: If there's a certain product you need that we don't stock, we can source it for you. We hope you have a successful beekeeping year in 2022!

WINNERS OF THE IRISH ENTERPRISE AWARDS 2021

WINTER SALE

Monday 9th - Friday 20th
 January 2023

We would like to welcome our latest agent Sam Lavery.

Congested District Board Hive

CDB HIVE

Tá traidisiún fada beachaireachta ar siúl i nGlenn Cholm Cille, Co. Dhún na nGall le breis is 100 bliain. Tá baint mhór ag Coirceog Bhord na gCeantar Cúng (BnaCC) leis an traidisiún sin. Tá an choirceog an-fhóirsteanach d'aeráid fhliuch ghaothach an cheantair agus tá an choirceog athdheartha seo déanta speisialta leis an toradh meala is fear a fháil.

Beekeeping has been a tradition in the remote area of Glencolmcille, Co. Donegal for over 100 years. The Congested District Board hive (CDB Hive) has been a big part of this. This hive is well suited to our wet and windy climate and our redesigned CDB allows for the production of both run and section honey.

Timber used: White/Red Deal
This hive is compatible with National Hoffman Frames
Comes with either a solid or mesh floor

CDB Hive

Product Code **HI01002**

Hive includes:
Floor of your choice, Brood Chamber (including Dummy Board), Middle Box & Gabled Roof.

Warre Hive

Tháinig an chéad Choirceog Warré (nó coirceog na ndaoine) as an Fhrainc sa naoú haois déag mar dhaigh níos simplí agus níos saoire le beachóga a choinneáil. Tá an choirceog seo an-fhóirsteanach do na beachóga. Is coirceog nuálaíoch í a bhfuil rogha ann le painéal gloine a chur isteach inti sa dóigh gur féidir na beachóga a fheiceáil istigh inti.

The Warre Hive (The People's Hive) originated in France in the 19th century as a simpler and more economical way to keep bees. It is a bee friendly hive that allows the bees to build downwards which promotes a healthier hive. It is attractive hive with the option of a glass panel to observe your bees at work.

Warre Hive

Product Code **HI10001**

Includes a Floor, 4 x Body Boxes, a Quilt Box and a Roof. Each body box includes 8 top bar frames. Comes with either a solid or a mesh floor.

Observation Hives

Product Code	Product	Price
HI07005	National Observation Hive	€340.00
HI07001	Langstroth Observation Hive	€355.00
HI07002	Rose Observation Hive	€355.00
HI07003	14 x12 Observation Hive	€355.00
HI07004	Commercial Observation Hive	€355.00

Observation Hive

Comprises of nuc box, roof, crown board, glass top and cover for transport. A secure, attractive demonstration hive. This observation hive has a ventilated mesh floor and a lockable disc entrance. Carrying handles for easy transport and a cover for the glass when not in use. The cover should be used with a cloth to avoid scratching the glass and to minimise noise and light accessing the bees.

Price **€4.50**

Product Code
HP01001

Foundation

Foundation machine

In 2021 Donegal Bees purchased a brand-new German manufactured wax band machine and foundation embossing machine. The wax band machine allows us to produce endless rolls of flat beeswax sheets and the foundation embossing machine embosses and cuts the sheets to any size. We now produce foundation at our premises in Donegal and our customers are able to buy Irish produced foundations sheets.

We will be using a combination of Irish and European premium beeswax to produce high quality foundation sheets for our customers. We can arrange to collect your beeswax or can pick it up at any of the shows and events we attend throughout the year. See our wax exchange tables and our straight purchase rates below.

Wax Exchange up to 50lbs

Wax Exchange

Easy Swap – foundation for beeswax

See below how many sheets of foundation per lb of beeswax you receive. No cash involved.

You decide the size of foundation you require. Converter 1kg=2.2lbs

Wax Exchange up to 50lbs	Wired Sheets per lb	Unwired Sheets per lb

Frame Prod

Product Code **FF03006**

This is a very useful tool for cleaning eyelets. Over time the eyelets become blocked by wax, honey etc, this tool enables you to clean the eyelets very efficiently.

Price **€5.00**

Wire Crimper

Product Code **FF03003**

This tool is used to aid in the process of wiring foundation. The device crimp and tighten your frame wire prior to embedding. This avoids straining of the wire or sore hands.

Price **€10.00**

Frame Eyelets

Product Code **FF03004**

The advantage to having eyelets on the side bar of a frame is that it prevents the wire from damaging or scratching the frames. The Eyelets are punched into the side bar of a frame by a eyelet punch.

Per 500 Pack	€10.50
Per 1000 Pack	€20.00

Transformer for Wiring Wax Foundation

Product Code **FF03007**

This device can be used for both running you own wiring board and for embedding wax into pre-wired frames.

Price **€55.00**

Sections & Frame Accessories

Frame & Foundation Wire (1kg Spool)

Product Code **FF03008**

Our 1kg spool of high-quality, galvanised Frame Wire can be heated and melted into sheets of beeswax foundation or cut and mounted inside your frames.

SPOOL DIMENSIONS:

- Width: 9cm - Diameter: 10cm

Price **€10.50**

Frame Wire Dispenser

Product Code	Product	Price
FF03009	500g	€7.50
FF03018	1kg	€10.50

Product may vary from image provided

Frame Nails

Product Code **FF03011**

19mm gimp pins for frame assembly. 500g Box

Price **€7.00**

Bag
Product Code: FF03015

Price **€2.50**

4oz Pien Hammer

A well balanced Hammer for frame assembly with a Hickory Handle.

Product Code **FF03012**

Price **€5.00**

Draper Rampin

Product Code **FF03013**

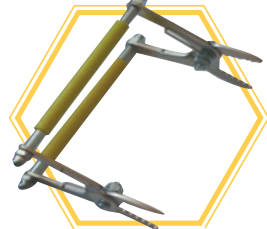

The ideal tool for putting frames together drop nail head end into the rampin and place over the area you wish to nail and firmly push down on the blue handle. For best results use 19/20mm frame nails.

Price **€7.50**

Frame Grip

Product Code **FF03014**

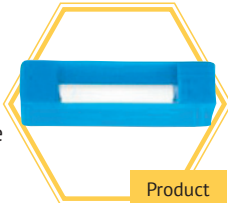

Our spring-loaded Frame Grip allows for the frames to be lifted cleanly and effortlessly with one hand Manufactured from Stainless Steel with plastic for added comfort.

Price **€9.00**

End Spacers 100 Pack

End Spacers prevent the bees from propolis the end of the frames. They can be slid onto each end of the top bars on the frame. These spacers are manufactured from a hard plastic offering great durability. They are particularly effective when using DN1 and SN1 frames, which use a narrow side-bar

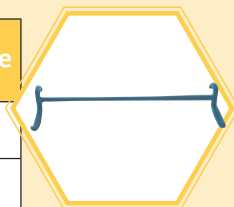

Product Code **FF03016**

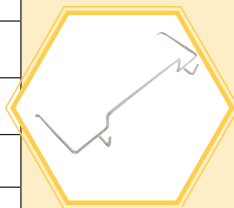

Price **€8.50**

Plastic Mouse Guard with adjustable bee spacer

Can be closed from 16 bee spaces to 1 bee space or shut completely. Also features vent strips for use when moving the hive. Colours may vary. Size: 315mm x 40mm

Product Code	Quantity	Price
AC03005	Single	€1.75
AC03002	10 pack	€16.50

Bee Food

Apipasta Fondant

Apipasta is made of sucrose which makes it very attractive for bees and easy to use for beekeepers. It is composed of micro-crystals designed to make it easier for the bees to digest. The product has been developed with low-consumption sugars, appropriated for the maintenance of the colony in the beehive over the winter months.

Especially Recommended for:

Autumn and winter feed, Provides Increased Colony Strength, Creation of new colonies

Product Code	Quantity	Price
FH01010	2.5kg Bag	€5.75
FH01011	Box (6 x 2.5kg)	€28.00
FH01012	1kg Bag	€2.50
FH01013	Box(15X1kg)	€28.00

Apipasta with Vitamins

This product offers an extra supply of vitamins, proteins and essential amino acids. These strengthen the colony during the coolest seasons, boost its productivity and improve its resistance to pesticides.

It is composed of micro-crystals especially designed to aid the bees in digestion. Product has been developed with low-consumption sugars, appropriated for the maintenance of a colony in the beehive over the winter months.

Especially Recommended for:

Maintenance of colonies, Weakened colonies strengthening. Brood Strengthening

Product Code	Quantity	Price
FH01015	1kg Bag	€5.75
FH01016	Box (15 x 1kg)	€67.00

Bulk Discount Available-Contact Office For Further Details

Apimix

Apimix is a liquid syrup with high fructose content, one of the most valued sugars by bees. Apimix prevents crystallisation ensuring the colony can consume the feed even at very low temperatures.

It contains high levels of vitamins, protein and essential amino acids, which are necessary to stimulate the beehive brood. Increase in Productivity in the beehive.

Especially Recommended for:

- Spring stimulation
- Creation of new colonies
- Ideal feed for when the Honey Crop has been removed

Product Code	Quantity	Price
FH01014	14kg Drum	€25.00

Hive Alive Fondant

Produced using enzymatic hydrolysis without the use of acids or heat processing giving no harmful HMF

- Added vitamins & amino acids selected for bee health
- Very fine particle size sugar for enhanced digestion
- Natural active ingredients
- Only European, non-GMO ingredients

Product Code	Quantity	Price
FH01019	Box (15 x 1kg)	€75.00
FH01020	1kg Bag	€5.20

Trust HiveAlive to Protect & Maximise colonies

- ✓ Stronger, more productive colonies
- ✓ Outstanding yields
- ✓ Promotes intestinal well-being
- ✓ Proven long-term protection
- ✓ Quickest and easiest to use
- ✓ Prevents syrup from fermenting

Hive Alive

Hive alive is a complementary feed for bees to maintain honey bee colony strength. As a guide, 100ml of HiveAlive will treat up to 10 hives

Product Code	Quantity	Price
FH01006	100ml	€18.00
FH01017	500ml	€72.00
FH01018	2l	€175.00

Feeders

Frame Feeders

Frame feeders are manufactured from birch plywood and red deal. They are fully sealed to contain liquid feed. Each feeder comes with an internal float

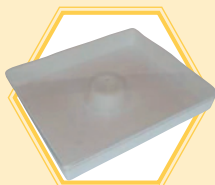

Product Code	Product	Price
FH04001	14X12 Frame Feeder	€11.50
FH04002	Langstroth Frame Feeder	€11.00
FH04003	Rose Frame Feeder	€8.00
FH04004	Commercial Frame Feeder	€11.00
FH04005	National Frame Feeder	€8.50

Large Plastic Feeder

Large Feeder with one centre hole with fits national, commercial and CDB Hives.

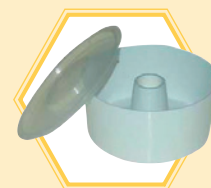

Product Code	Quantity	Price
FH03010	Single	€16.00
FH03015	10 Pack	€155.00

4 Pint Rapid Feeder

This feeder is made from a durable, food-grade plastic. It has capacity for approximately 4 pints (1.89L) of feeding syrup.

Product Code	Quantity	Price
FH03014	Single	€5.50
FH03007	10 Pack	€47.00

Contact Feeder

This 5 litre feeder is designed to hold liquid feed. Simply place the liquid feed into the container and make sure that the lid is pressed on correctly. Turn the container upside down to airlock the mesh. Simply place over feeding hole on the crown board. These contact feeder are designed to fit inside a super.

Dimensions: Height 190mm, Diameter 235mm

Product Code	Quantity	Price
FH03009	Single	€7.00
FH03001	5 Pack	€33.00

Entrance Water Feeder

This Entrance Feeder has a screw cap tread that works with plastic bottle. Place the Entrance Feeder through the entrance of the hive and hold in place with a elastic band and 2 drawing pins.

Product Code	Quantity	Price
FH03011	Single	€2.50
FH03002	5 Pack	€10.00

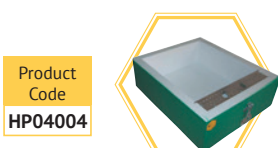

Entrance Feeder

This Feeder can be placed at the hive opening and is suitable for liquid Feed. The Feeder needs to be level to avoid spillage.

Price €3.50

Langstroth Polystyrene Feeder

Ashforth style feeder suitable for langstroth poly hives. Holds up to 10 litres.

Price €53.00

Nuc Feeder

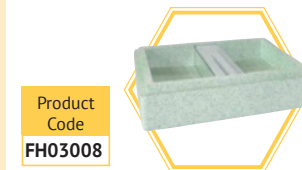

The Feeder can be used for both liquid and solid feed. To use with solid feed remove the yellow plug from the feeder and place the solid feed over the hole. Compatible with Commercial Poly Nuc and Langstroth Poly Nuc

Product Codes:
Commercial Poly Nuc: **FH03004**
Langstroth Poly Nuc: **FH03005**

Price €17.00

Polystyrene Nuc Feeder Type 1

Compatible with type 1 Polystyrene nucleus only.

Price €33.50

Polystyrene Hive Feeder Type 1

National Poly Feeder designed to work with the National Poly Hive for maximum feeding capacity. Includes clear cover screen.

Price €32.00

National Feeder 10 Litre

Holds up to 10 litres. Compatible with all national and commercial wooden hives and our Type 3 Polystyrene Hive

Price €49.00

Box Feeder 1 Litre

This rectangular feeder holds up to 1 litre and works with most shallow nuc box roofs.

Price €5.00

Plastic Box Feeder 1 Litre

Circular shallow feeder suitable for Poly Nuc Type 1. Diameter 250mm

Price €5.00

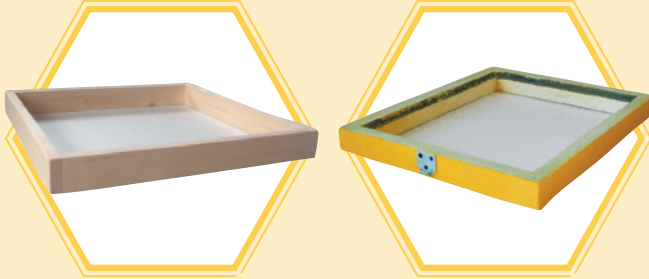

Ekes, Hive Cleaning

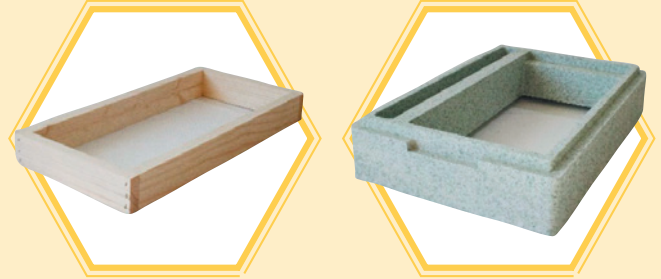

Ekes

Our Ekes allow a cavity to be created under the roof of the hive/nuc for feed and treatment of bees

Hive Ekes

A food grade syringe for the clean, hassle free application of treatments to your hives

Product Code
FH06003

Price **€1.80**

VarroMed

Treatment against varroa, suitable for use during autumn, winter and spring.

Product Code
FH06006

Price **€40.00**

Apiguard

Thymol based treatment for varroa, box of 10 trays suitable for treatment of 5 hives.

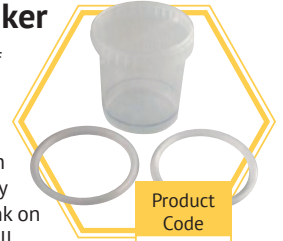

Product Code
FH06008

Price **€30.00**

Varroa Shaker

Proven method of testing for Varroa in your hives. Recommended by the Native Irish Honey Bee Society (N.I.H.B.S.). See link on our website for full instructions for use.

Product Code
FH06004

Price **€5.00**

Apibioxal

Oxalic Acid based varroa treatment. Apibioxal can be used by trickling between the frames or in a vaporiser a 35g treats up to 10 hives. Full instructions included in pack.

Product Code
FH06010

Price **€15.00**

Apivar 500mg Strips

10 strips per pack 40cm x 210cm long strips. Fits neatly between frames. No need to cut or bend strips. 99% efficacy against varroa mites.

Product Code
FH06012

Price **€36.00**

Microscopes

SP27 LED Microscope

This is an extremely versatile instrument with excellent LED illumination that allows it be to be used away from an electricity supply. It includes a rotating monocular head with a x10 widefield eyepiece and four position turret with x4, x10, x40 and x100.

Product Code
AC07001

Price **€275.00**

BM1 Long Arm Stereomicroscope

This long arm stereomicroscope is supported at the end of an extended horizontal arm which can be clamped to allow viewing at any convenient angle.

Product Code
AC07002

Price **€275.00**

DM2 Stereo microscope

An excellent introduction to genuine stereomicroscopy at an affordable price. The unit has upright eyetubes with x10 widefield eyepieces and a pair of x2 objectives. Focus is by pillar adjustment for coarse movement with a rack and pinion fine focus system.

Product Code
AC07003

Price **€110.00**

SP22 Microscope

The monocular head on this microscope rotates through 360o and has a wide field x10 good quality eyepiece. The slide platform is a full mechanical stage with drop down coaxial controls that make fine movement in the required direction very easy.

Product Code
AC07004

Price **€165.00**

MX4 x10 & x30 LED Microscope

This turret mounted twin objective Microscope allows a choice x10 and x30 magnification. The LED gives a much brighter light and this microscope is ideal for Bee dissecting.

Product Code
AC07007

Price **€220.00**

Aluminium Case for MX Microscope

Product Code
AC07008

Price **€45.00**

Queen Breeding

Butler Cage

The original queen introduction cage. Place queen in cage and wrap open end with paper holding in place with an elastic band. For best results place cage with paper end down between 2 frames.

Product Code	Quantity	Price
AC04016	Single	€2.50
AC04001	5 Pack	€11.00

Queen Cage

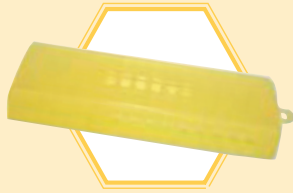

This queen cage can be used as an introduction cage. Fondant is placed in one side of the cage and the queen in the other. As the worker bees eat through the fondant they become familiar with the pheromone released by the new queen. One side allows for this close contact and the other for releasing the queen.

Product Code	Quantity	Price
AC04008	Single	€0.65
AC04002	5 Pack	€3.00

Puzzle Cage

The puzzle cage can be used to send a queen by post or for introducing a queen into a hive.

Product Code	Quantity	Price
AC04027	Single	€0.80
AC04003	5 Pack	€3.50

One Handed Queen Catcher

The catcher is comprised of a flexible sliding shutter which controls entry to the chamber and a sliding plunger which is used to push the queen up to the marking mesh. These are enclosed in a clear, durable plastic casing. The open queen catcher can be placed over the queen and the sliding shutter closed with one hand.

Price €10.00

Queen Rearing Frames

Queen breeding pack not included

Product Code	Description	Price
AC04030	National Queen Rearing Frames	€8.00
AC04031	Commercial Queen Rearing Frames	€8.00

Plastic Queen Catcher Pipe

A great way to examine your queen. Remove foam and place plastic catcher over the queen. Hold upright and she will walk up the plastic. Remove rubber bung for transferring queen into butlers cage/puzzle cage for posting. Replace foam and blow gently through it. The queen should move swiftly into your cage. Easy way to examine queen without touching her.

Price €6.00

Clip Catcher

An easy to use device for catching your queen. Worker bees can escape, if also picked up, through the slots.

Price €5.00

Turn and Mark Tube

Designed for clipping and marking queen. Queen is gently pushed up the tube and the bottom tube can then be rotated to position the queen correctly for clipping and marking.

Price €6.00

Queen Marking Ring

A handy plastic cage for observing and marking the queen on the comb.

Price €1.00

Press in Cage

A handy plastic cage for clipping and marking the queen on the comb. It also allows the worker bee to pass through it.

Price €4.00

Var Control Cage

This cage confines the queen bee but still allows worker bees access. During the period of confinement the queen bee stops laying. For caging we recommend the Queen Collector.

Price €7.00

Queen Collector Kit

For fast and secure marking and to confine the queen bee for use with Var Control Cage

Price €25.00

Fresnel Magnifying Lens

This business card size plastic magnifier is an excellent tool in the apiary. It can be used as an aid to monitor varroa levels in colonies and to view eggs and young larvae.

Price €2.00

Queen Breeding

Crown of Thorns

Used to observe and mark the queen whilst on the frame. Metal pins with trellis top.

Price €9.00

Product Code AC04014

Plunge Marking Cage

A gentle way to hold and mark your queen. Foam covered plunger gently pushes queen up the tube up to the mesh for marking.

Product Code	Type	Price
AC04012	With Cloth Mesh	€8.00
AC04026	With Plastic Mesh	€7.00

Marking Pen

Quick drying, water based, non-toxic pen. Available in 5 colours.

Colour Coding as follows, years ending

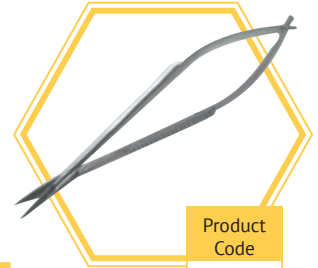

- 1 or 6 White AC04034
- 2 or 7 Yellow AC04035
- 3 or 8 Red AC04036
- 4 or 9 Green AC04025
- 5 or 0 Blue AC04037

Price €5.00

Scissors

Surgical grade leaf-spring scissors. Easier to use than standard scissors as there are no cumbersome finger holes. Length: 145mm (6")

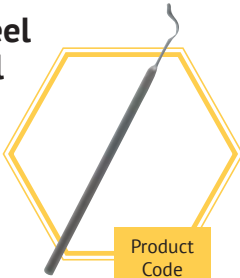

Price €7.00

Product Code AC04021

Stainless Steel Grafting Tool

This grafting tool has a cranked end tip to allow for hassle-free, gentle removal of larva from the cell.

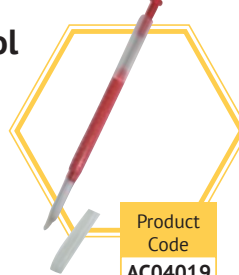

Product Code AC04018

Price €7.00

Chinese Grafting Tool

This grafting tool is of a durable, plastic construction. Includes a spring-loaded plunger for sliding eggs off the spatula tip.

Product Code AC04019

Price €4.00

Grafting Tool with Magnifying Glass

This stainless steel grafting tool features a double ended shaft with magnifying glass.

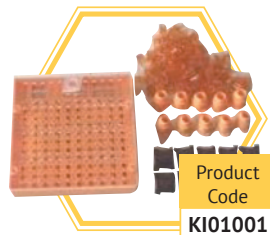

Product Code AC04004

Price €11.00

Cup Kit System

This system is a way of raising queen cells without grafting. The kit contains 1 plastic comb box, 100 cell cups, 10 bar blocks, 10 caps and instructions for use

Price €55.00

Product Code KI01001

Queen Breeding Pack

Contains 10 cell cups, 10 sockets and 10 cell cup holders

Price €9.50

Product Code AC04022

Brown Cell Cups – 100 pack

Price €7.00

Product Code AC04005

Hair Roller Cage – 10 pack

Protects the newly emerging queen and allows the bees to feed her through the plastic.

Price €4.00

Product Code AC04020

Queen Cell Protector

When placed over a ripe cell it prevents the bees from pulling it down. Can be fixed to comb using the wire spike. The flat slide is used to protect the cell when moving it.

Price €4.50

Product Code AC04028

Queen Breeding and Mating Boxes

LED Beekeeping Torch

Need help when grafting? This very bright LED torch is great for viewing newly laid eggs in cells. Requires 3AAA batteries.

Product Code
AC04006

Price **€4.00**

Magnifying Visor with Lights

Magnifying Visor with 2 LED side lights. 3 lens strength. Velcro adjustable head strap. Great accompaniment when grafting. Requires 4 AAA batteries

Product Code
AC04009

Price **€24.50**

Incubator

Suitable for keeping ripe cells, virgins and inseminated queens in controlled conditions. Temperature recommendations: 35°C for pupae, 32°C for emerging queens. Features Digital Temperature control. Inspection windows to allow you to follow all the stages of incubation. Super-efficient costing less than 15c a day to run.

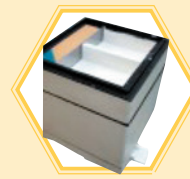

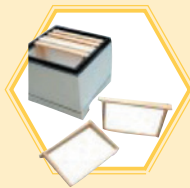

Product Code
AC04032

Price **€215.00**

Queen Mating Boxes

Mini 6 Frame Mating hive

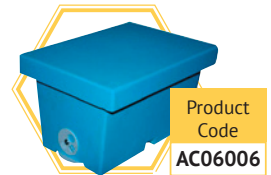

This mating hive contains two mating hives in one with two separate entrances. Dummy board and top feeder included. Hive density polystyrene

Product Code	Description	Price
AC06002	Mini 6 Frame mating hive with frames	€63.00
AC06003	Mini 6 Frame Mating Hive Brood Box	€26.00
AC06001	Mini Partition divider	€2.50
FF02011	Frames (6 pack)	€6.00

Queen Mating Box

Queen mating box with 4 wooden frames.

Price **€25.50**

Apideas

Once a queen has been raised she needs to be mated. Place a cupful of bees and a queen into the apidea box. This is a small mating hive made from polystyrene foam containing plastic frames. New product: Blue apidea frame. Can withstand temperatures of 135°C

Traps, Buckets & Tanks

Wasp/Hornet Trap

Wasp invasion is a very common problem for beekeepers and when this happens you may lose your hive of bees and your honey. A sugary solution is placed in the bottom of the container and helps lure the wasps. The entrance of the trap is a cone design which allows the wasp to enter the container but not exit. The entrance is also designed so that a honey bee may enter and exit the trap and therefore they do not get trapped inside. **Also available for hornets.**

Product Code	Product	Price	Picture
MI08003	Wasp Trap	€5.00	A

Uncapping Machines

Uncapping Machines

Uncapping Table & Wax Melter

The device has 2 functions
1) To melt the wax 2) To uncap the frames

Controlled by thermostat and digital LCD temperature controller. Heated bottom 230V/650W | Heated cover 230V/4kw 400V power/8Kw | Reinforced uncapping table with wheels

Dimensions

Length: See table
Height 400mm, total height 835mm
Width: 445mm

Product Code	Type	Price
HA04001	Uncapping Table & Wax Melter 1000mm	€2150.00
HA04002	Uncapping Table & Wax Melter 1500mm	€2300.00

Uncapping Machine with Automatic Feeder 230V-Closed Circuit

This piece of machinery has blades which are heated to the appropriate temperature by heating liquid flowing in closed circuit with a pump.

Specifications

Blade Motor: 0.18kW
Feeding Motor: 0.12kW
Motor Rotation speed: 9 rpm
Power Supply: 230V
Heating power circuit: 2kW
Liquid level indicator
Blade warming time: 10-15 minutes
Frame capacity per minute: 4
Length of table: 1500mm

Product Code
HA04003

Price **€5800.00**

Uncapping Machine Manual Feeder with Tank

Specifications

Power Supply 230V/50Hz
Power of knives drive motor 0.18kW
Steam generator's voltage 230 V
Heating power-2000W
Water capacity - 4l
Warm-up time - 15 min
Expected steam generators working time - 1 h

Product Code
HA04005

Price **€4300.00**

Uncapping Machine with Automatic Feeder 230V-Electric Heated Blades

Specifications

Blade Motor: 0.18kW
Feeding Motor: 0.12kW
Motor Rotation speed: 9 rpm
Power Supply: 230V
Heating blades: 2x40w
Blade warming time: 5-7 minutes
Frame capacity per minute: 4
Length of table: 1500mm

Product Code
HA04004

Price **€5600.00**

Honey Presses, Capping Screw Presses & Wax Melters

Uncapping Presses

Honey Press

Stainless Steel 10 Litre honey press. Mainly used for the removal of heather honey from the comb.

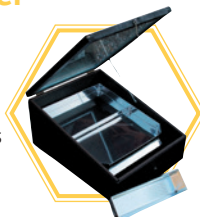

Product Code
HA05005

Product Code	Description	Price
HA05005	Honey Press	€455.00
HA05006	Honey Press Bag Coarse	€15.00
HA05007	Honey Press Bag Fine	€15.00

Solar Wax Melter

This device uses the sun to melt burr combs and small pieces of wax. Comes complete with strainer grid and stainless steel collection tray. Dimensions: 670mm long x 530mm wide x 340mm high

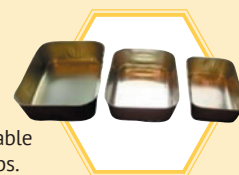

Product Code
HA11001

Price **€185.00**

Wax Mould

Steel Tin for moulding beeswax bars/blocks. Available 500gr/1lb, 2kg/4lbs, 3kg/6lbs.

Product Code	Description	Price
MI03001	Wax Mould (500gr/1lb)	€5.00
MI03002	Wax Mould (2kg/4lbs)	€7.00
MI03003	Wax Mould (3kg/6lbs)	€8.50

Wax Capping Screw Press

Wax capping screw press manufactured from acid-resistant stainless steel.

Wax Capping Screw Press (100kg/hour)

Specifications:
Capacity: up to 100 kg / hour
Power Supply: 230V
Power: 0.55 kW
Rotation speed: adjustable, up to 9 revs/min
Dimensions:
Length: 128 cm
Width: 52 cm
Height: 80 cm

Product Code
HA05004

Price **€6100.00**

Wax capping screw press (50kg/hour)

Specifications
Capacity: up to 50 kg / hour
Power Supply: 230V
Power: 0.55 kW
Rotation speed: adjustable, up to 14 revs/min
Dimensions:
Length: 105 cm
Width: 41 cm
Height: 68 cm

Product Code
HA05001

Price **€3500.00**

Wax Capping Screw Press (500kg/hour)

Specifications:
Capacity: up to 200 kg / hour
Power Supply: 230V
Power: 1.5 kW
Rotation speed: adjustable, up to 9 revs/min
Dimensions:
Length: 175 cm
Width: 75 cm
Height: 119 cm

Product Code
HA05002

Price **€11,000**

Wax Capping Screw Press (200kg/hour)

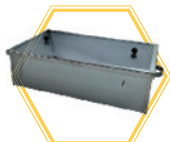

Specifications:
Capacity: up to 200 kg / hour
Power Supply: 230V
Power: 1.1 kW
Rotation speed: adjustable, up to 9 revs/min
Dimensions:
Length: 135 cm
Width: 75 cm
Height: 92 cm

Product Code
HA05003

Price **€8900.00**

Solar Wax Melter Stainless Steel

Product Code
HA11004

Useful for melting down the combs or cappings collected during extraction. Perfect for small scale beekeepers. Dimensions: 550mm wide, 920mm long and 205mm high

Price **€540.00**

Solar Wax Melter Plastic

Product Code
HA11005

For melting down the combs and cappings collected. Perfect for beekeepers who don't want to invest in a stainless steel melter. Dimensions: 410mm wide, 610mm long and 205mm high

Price **€230.00**

Gas Steam Wax Melter

Stainless Steel, free gas stool

Product Code	Description	Price
HA11002	Large	€920.00

Steam Wax Melter

Product Code
HA11006

Easy to use wax melter. Comes with Polypropylene container, cap. 33l, Basket stainless steel, cap. 20l, Metal stand, Tray for wax, Steam generator

Price **€280.00**

Honey Warming

Honey Warming

Honey Heater

Used to liquefy honey. Features Heating element, digital LCD temperature controller and thermostat. Power supply used: 230v/50Hz. Temperature Range: 30 – 55°C

Type	Honey Heater FI250	Honey Heater FI330	Honey Heater FI500
Diameter	25cm	33cm	50cm
Height	101cm	101cm	110cm
Height that can be immersed	84cm	84cm	90cm
Heating	2 x 400w	2 x 500w	4 x 375w
Product Code	HA12004	HA12003	HA12002
Price	€485.00	€525.00	€605.00

Honey Liquefier and Decrystallisation

Tank for bottling and storing honey. The honey is liquefied in jars or buckets. Stainless steel units with digital display. Heating power: 230v/175w. Temperature control: 30 – 55°C

Product Code	Type	Price
HA12006	50 litre	€970.00
HA12005	70 litre	€1050.00
HA12001	100 litre	€1225.00

Honey Warming Cabinet

Used for decrystallisation of honey into liquid form. The chamber is equipped with heating element (with temperature controls) and a fan for better heat distribution. 70w total power. Temperature range: 30 – 55°C.

Product Code	Type	Type (height x width x depth)	Price
HA12011	65 litre	520mm x 340mm x 320mm	€595.00
HA12010	90 litre	540mm x 340mm x 380mm	€695.00
HA12009	490 litre	1205mm x 875mm x 865mm	€1950.00

Drum Heating Cabinet

Used for decrystallisation of honey into liquid form. The chamber is equipped with heating element (with temperature controls) and a fan for better heat distribution. Power supply: 230v/50Hz. Temperature range: 30 – 55°C.

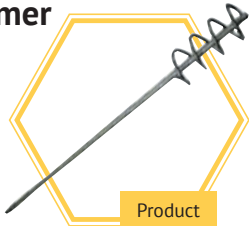

Product Code	Type (height x width x depth)	Price
HA12008	1290mm x 1135mm x 1535mm	€1995.00
HA12007	1235mm x 1520mm x 1535mm	€2315.00

Creaming Machines

Honey Creamer Screw

This stainless steel spiral is 60mm in diameter and 600mm in length.

Stirring Paddle: Stainless Steel

Product Code
HA02010

Price **€720.00**

Honey Creaming Machine

This machine is made from food grade stainless steel. The creaming process is performed in a repetitive "work – break" cycle and the mixer works for 15 minutes and then stands for 1hour. This process is repeated for 2-3 days to produce a quality honey with a similar consistency to butter.

Type	50L	70L	100L	150L	200L
Height	440mm	610mm	610mm	730mm	730mm
Drum Diameter	400mm	400mm	500mm	500mm	500mm
Motor	0.18kW	0.25kW	0.37kW	1.1kW	1.1kW
Power Supply	240V	240V	240V	240V	240V
Product Code	HA02014	HA02013	HA02012	HA02011	HA02009
Price	€1600.00	€1750.00	€1950.00	€2200.00	€2345.00

Honey Creamer & Liquefier

This machine has 2 functions:

- 1) to carry out the process of creaming honey
- 2) to heat and Melt crystallized Honey

The heating tank of these machines have heating cables placed around the drum which allow for a uniform and consistent heating. This device also has a temperature controller which prevents the honey from overheating. It is made of stainless steel which is designed to create precise creamed honey using temperatures of up to 40o. This process changes the honey from crystallized to liquid. When the process is complete the honey reaches a consistency similar to butter.

All machines are 240V power with temperature control 30°C - 70°C

Type	50L	70L	100L	150L	200L
Capacity	50 litre	70 litre	100 litre	150 litre	200 litre

Product Code	HA02007	HA02003	HA02006	HA02005	HA02004
Price	€2400.00	€2900.00	€3200.00	€3700.00	€4200.00

Propolis Machines

Pollen Cleaner

A device for separating bee pollen from contamination. Consists of a centrifugal fan made of several flat blades and a set of two movable sieves.

Product Code
HA13001

Price €2600.00

Pollen Cleaner (Large)

Designed to separate pollen from chaff using air currents. The pollen is sifted through various sized screens while the fan air is constantly blowing to any debris.

Dimensions
Height: 96 cm
Width: 70 cm
Length: 105 cm

Specifications
Powered by 0.09 kW/230V engine
Number of rotations per minute: 1320
Transmission: 56 / 7.5
Controller enables easy and flexible adjustment of the number of rotations.

Product Code
HA13002

Price €5200.00

Stainless Steel Pollen Dryer

Contains 5 drawers. Can dry up to 25kg of pollen at any one time.

External Dimensions:
Width 430mm
Height 870mm
Depth 525mm

Specifications
Heater 500W
230V power supply
Fan 30W
Temperature control 30°C to 55°C
5 Stainless steel trays

Product Code
HA13003

Price €1200.00

Bee Bread Harvester

In order to harvest the pollen the comb is passed through the machine and then sieved to separate from the wax before drying in a pollen dryer. Before threshing honey must be removed from the comb and it should be cut into 85 mm wide strips and frozen in a freezer.

Specifications
Raw material feed opening width: 85 mm.
Machine power: 250 W / 230 V.
Weight 7.4 kg.

Product Code
HA13004

Price €400.00

Pollen Entrance Trap

For collecting Your own pollen. This trap fits onto the entrance of national and commercial hives. The collection screen can be raised when not collecting pollen. There are 3 drone escapes to allow drones to exit the hive. The pollen collection drawer slides out from either side, to suit your needs. Pollen must be collected daily, best collected in the evening.

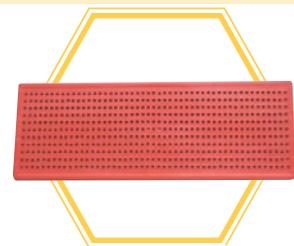

Product Code
AC02010

Price €42.00

Pollen Grid

Collects pollen from your bees as they enter the hive.

Product Code
AC02009

Price €2.00

Pollen Chart

The perfect pocket guide to identifying pollen loads of the bees.

Bottling Machines

Bottling Machine with Mini Turn Table

This bottling machine has the capacity to bottle, cream and pump honey. It can fill up to 350 lb jars per hour. The machine can be reduced in size by decreasing the dimensions of the table and removing the racks. Can be easily operated by one person.

Dimensions

length: 810mm | base width: 500mm
Height: 635mm
turn table diameter: 600mm

Specifications

creaming function
non drip pump dispenser
filling accuracy +/- 1 g
Filling range from 10g to 45kg
Food grade stainless steel
230V / 200W.
TC5/4 Included

Product Code
HA03002

Price **€4600.00**

Bottling Machine with Automatic turn table

This bottling machine has the capacity to bottle, cream and pump honey. It can fill up to 350 lb jars per hour on an automatic rotating table.

Additional features

- Equipped with wheels which makes it easy to move to various locations
- Table has a height Adjustable base which you can control the height at which honey is Dispensed
- Equipped with two jarring systems
- Control device to regulate the speed of the rotating table

Dimensions

Height: 820mm
turn table diameter: 900mm
Minimum jar size: 30mm wide x 45mm high
Maximum jar size: 150mm wide x 300mm high

Specifications

creaming function
non drip pump dispenser
filling accuracy +/- 1 g
Filling range from 4g to 45kg
Food grade stainless steel
230V / 200W.
TC5/4 Included

Product Code
HA03001

Price **€5900.00**

Automatic Honey Bottling Line

This device is a professional line filling machine, which fills up to 350 lb jars per hour. It is designed to be used by a single operator.

Specifications

Filling range 250g to 1250g (9oz to 2.7lb)
Total length 3.8m
Each Element has a separate controller
Power tables 200W/pc
Food grade stainless steel
Line is set on a frame equipped with wheels
TC5/4 Included

Product Code
HA03006

Price **€18,000.00**

Heated Tank 100L with Stand

This is a heated tank which maintains a suitable honey temperature during the filling process. This device is equipped with a ball valve and an electronic level sensor which enables the pump to stop after reaching certain levels.

Specifications

520W heating power
230V/200W power supply
NB-Heated Tank and stand is pictured with a bottling machine to illustrate how it would be used. Price includes 100l heated tank and stand only

Product Code
HA03003

Price **€3250.00**

Bottling Machine with Stand

This digitally controlled bottling machine comes with a dispensing starter peddle, 1.5m hose pipe, connection clamp and stainless steel stand. Very efficient and precise.

Specifications

Honey bottler with creaming function;
Filling accuracy of +/- 1g;
Filling range from 4g to 45kg;
Food grade stainless steel
Non drip pump dispenser;
230V/200W power supply.

Product Code
HA03005

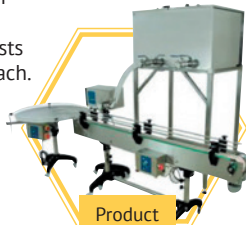

Price **€2800.00**

Dual Chambered 300L-Heated Tank and Stand

This is a dual chamber heated tank which maintains a suitable honey temperature during the filling process. This tank consists of two separate chambers of 150 litres each. This device is equipped with a ball valve and an electronic level sensor which enables the pump to stop after reaching certain levels.

Specifications

1kw heating power | 230V/200W power supply
NB-Heated Dual Chambered Tank and stand is pictured with a bottling machine to illustrate how it would be used.
Price includes dual chambered 300litre heated tank with stand only

Product Code
HA03004

Price **€6400.00**

Honey Pump

This device enables honey to be pumped from one tank to another. It is also ideal to move honey from sump device to storage in a bucket or tank.

Price **€25.00**

Practical Microscopy for Beekeepers

Author: Bob Maurer

Product Code
MI05037

Price **€24.00**

Candle Moulds & Wicks

Round Candle Wick

Choosing the correct wick size depends on the size of the diameter of the resulting candle. With cast or drawn candles the wick thickness and diameter of the candle are equal. Example: for a candle of diameter 1cm, the wick thickness is no. 1. If the diameter of the candle is halfway between 2 wick thicknesses always choose the wider wick. This ensures the candle stays burning when lit. (Example: for candle of diameter 0.5cm, the wick thickness is no. 1)

When rolling candles from beeswax sheets double the diameter of the candle to determine the wick size required. The wick must also be dipped.

Product Code:

Wick No. 1 MI04008 | **Wick No. 2** MI04009 | **Wick No. 3** MI04010 | **Wick No. 4** MI04011 | **Wick No. 5** MI04012
