Hakka 16 Trays Food Dehydrator Fruit Vegetable Drying Adjustable Time Temp (QG-C16)

Technical Data

Length	15.7"
Width	18.1"
Height	23.6"
Net Weight	36.5 LB
Gross Weight	37 LB
Voltage	110V
Power	1350W
Time Range	0-24h
Temp. Range	85-194°F
Noise	45-50db
Material	Stainless Steel

Features

- 16-Tray Capacity: Features 16 removable chrome-plated racks, offering ample space for high-capacity dehydrating.
- User-Friendly Controls: Intuitive touch-pad controls with a digital LED display make it easy to set precise drying times and temperatures.
- Stainless Steel Build: Durable stainless-steel construction with a clear glass door for easy monitoring during operation.
- Even Airflow: Rear-mounted fan ensures consistent drying across all trays without the need for rotation.
- Versatile Dehydration: Ideal for a wide range of foods with an adjustable temperature range of 85-194°F and a 24-hour timer for precise results.

Notes & Details

This Hakka 16-tray stainless steel commercial food dehydrator is perfect for creating a variety of dried foods, including veggie chips, fruit, and jerky, with ease and precision. It features intuitive digital controls for setting dry time and temperature, and a rear-mounted fan ensures even airflow for consistent results. The dehydrator's durable stainless-steel construction, clear glass door, and interior LED light make monitoring easy, while the removable chrome-plated racks offer high capacity and easy cleaning. With an adjustable temperature range of 85-194 degrees Fahrenheit and a 24-hour timer, this dehydrator is designed for versatility in commercial kitchens. It also includes flexible poly-screen tray inserts to prevent sticking, and a guide to dehydration, making it a reliable and efficient addition to any food preparation process.
