

# French fries machine

## Instruction Manual

### Description:

1. Main body: Fully 201# stainless steel material and Aluminium Alloy.
2. Potato holder: three sets blade & mould size for french fries machine is 6mm, 9mm, 13mm.

### How to use:

1. Insert the potato into the potato holder, then revolve the handle by hand until the potato finishes cutting.
2. About changing the blade mould: if you need another size potato chip, then adjust the screw of the blade set and the white mould. Take out the blade and the black mould, install another size blade & white mould.

### Cleaning:

1. Clean the mould by wet cloth or water, do not clean the blade by hand.
2. Remove the blade from the machine for cleaning if necessary.
