Hakka Grain Mill 500g High Speed Food Electric Stainless Steel Powder Mill Seeds Flour Nut Pill Wheat Corn Herbs Spices Powder Machine, 2000W(10B)

Technical Data

Length	7.8"
Width	7.6"
Height	14.9"
Power	2000W
Voltage	110V/60hz
Material	Stainless Steel
Rotating Speed	25000r/min

Features

- High-Powered Grinding: Features a robust 2000W motor with 25,000 rpm speed, effortlessly grinding dry materials into fine powder in just one minute.
- Versatile Use: Perfect for grinding grains, spices, nuts, and herbs, making it ideal for kitchens, pharmacies, and laboratories.
- Safety Features: Made from durable food-grade stainless steel with an automatic power cut-off for overload protection, ensuring safe use.
- Compact Design: Sleek, easy-to-use design with quick-opening assembly, mirror-polished finish, and non-slip base for stability.
- Wide Application: Suitable for home kitchens, restaurants, clinics, and research labs, offering a modern solution for efficient grinding needs.

Technical Drawings

Capacity	500g	Power	2000W
Material	430 Stainless Steel	Grinding Fineness	50-300 Mesh
Voltage	110V/60Hz	Work Time	0-5 min
Rotating Speed	25000r/min	Interval Time	5 min

Notes & Details

The Hakka small grain grinder features a powerful 2000W motor with a rotation speed of up to 25,000 rpm, enabling it to grind dry materials into fine 50 to 300 mesh powder within a minute. Its triple blade system, comprising grinding, rotating, and flour removal blades, makes it ideal for processing various grains, spices, nuts, herbs, and even traditional Chinese medicine. Made from durable, food-grade stainless steel, this grinder is designed with safety in mind, automatically cutting off power when overloaded and easily reset with the touch of a button. The machine's compact and user-friendly design includes a quick-opening assembly, mirror-polished hood, secure locking and sealing rings, and a non-slip pad at the bottom. It is versatile enough for use in homes, kitchens, restaurants, clinics, pharmacies, laboratories, and more, providing a modern alternative to traditional grinders. For optimal performance, it is recommended to use the grinder for no more than 3 minutes at a time, followed by a 5-10 minute rest.
