

Precautions

READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a convenient place for future reference.

Power Supply

Always use a DC 9V center negative AC adapter. Use of an adapter other than that specified could damage the unit or cause malfunction and pose a safety hazard. Always connect the AC adapter to an AC outlet that supplies the rated voltage required by the adapter. Disconnect the AC adapter from the AC outlet when during lightning storms or not using the unit for an extended period.

Connections

Always turn off the power before connecting or disconnecting. Make sure to disconnect all cables and AC adapter before moving the unit. This will help prevent malfunction and damages.

Environment Considerations

Avoid using the unit in any of the following conditions that could cause malfunction:

- Extremely hot or cold places
- Under direct sunlight
- Magnetic fields
- Near heaters and other heat sources
- Sandy or dusty places
- Places that are extremely humid or exposed to splashing water
- Places with lots of vibrations

Electrical Interference

Devices that are very susceptible to interference or that emits powerful electromagnetic waves (e.g. radios and TVs) should not

be placed near this unit, as interference could occur. Electromagnetic interference could cause malfunction and could corrupt or destroy data. Always operate this unit at a suitable distance from these devices.

Handling

Do not apply excessive force to the switches and other controls, exposing the unit to strong impacts, which could cause it to break. Do not put foreign objects or liquids into the unit. Never open the case or attempt to modify the product in any way since this can result in damage to the unit. Clean only with a soft, dry cloth.

DONNER FUZZ SEEKER

Owner's Manual

Introduction

Fuzz Seeker is a compact fuzz pedal suitable for guitar and bass. It reproduces the classic '70s searing, squeezing octave fuzz sound with great sound flexibility. Onboard toggle lets you select from two sound characters, and OCTA footswitch is for adding upper octave sounds.

Donner

FUZZ SEEKER

Overview

● Classics Octave Fuzz Sound

Featuring pure analog design, the Fuzz Seeker recreates the wild, huge, squeezed fuzz tone with raw, pure analog power that inspired lots of musicians since 1970s.

● Easy Controls, Wide Flexibilities

The Fuzz Seeker features an intuitive, straight-forward control with wide tonal range, which makes it suitable for both guitars and basses. The OCTA knob is for fine tuning the octave overtone amount when you kick OCTA footswitch on.

● 2-way Tone Switch

The Fuzz Seeker offers a the 2-way selector for choosing from two sound types for satisfying different musicians: The SCP mode delivers a more bright, scooped tone, and the FAT mode gives you a thick, huge, fat tone.

● Carefully Selected Components

The Fuzz Seeker is designed and built with carefully selected components to ensure best sound quality and road performance. The solid Aluminum-alloy chassis ensures touring reliability, and relay-based True Bypass design gives you a transparent tone.

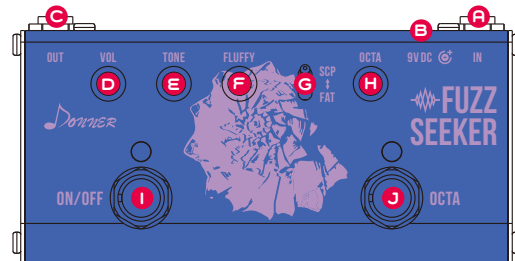

Features

- Convenient compact size
- True bypass
- Aggressive octave fuzz pedal suits for both guitars and basses
- OCTA footswitch for adding upper octave overtones
- Onboard knobs and switch provide flexible sound character
- Suitable for any music style

Specifications

Power Requirement: 9V DC center negative
Current Consumption: 35mA
Dimensions: 132x64x45mm
Weight: 240g
Material: Aluminum alloy

Connection & Controls

- A IN Jack:** 1/4" mono audio jack, for connecting guitar.
- B 9V DC Jack:** For power supply, use a 9-volt DC regulated by AC adapter, 500mA (plug polarity is positive on the barrel and negative in the center).
- C OUT Jack:** 1/4" mono audio jack, for connecting to an amplifier.
- D VOL:** Controls the output volume.
- E TONE:** Controls the effect tone.
- F FLUFFY:** Controls the fuzz gain amount.
- G SCP/FAT Toggle:** Selects from two sound modes:
SCP: Providing a bright, scooped fuzz tone.
FAT: Providing a fat, thick fuzz tone.
- H OCTA:** Controls the upper octave overtone amount.
- I ON/OFF Footswitch:** Switches this unit on/off.
- J OCTA Footswitch:** Switches upper octave overtone on/off.
