

DA-LITE
A brand of  Legrand

Exclusive Authorized
Distribution Program

For Your Image

INTRODUCTION

Founded in 1909 by Adele De Berri, Da-Lite is the leading producer of high quality commercial and residential projection screens. With headquarters in Warsaw, Indiana, Da-Lite manufactures and provides projection screens, surfaces and accessories to organizations and venues around the world. Our expansive lineup of electric, fixed frame, portable, manual and interactive screens are available with 16K-ready and Ambient

Light Rejection screen surfaces. Industry-leading selection tools and resources ensure the right screen surface for a specific application. Da-Lite screens are TAA compliant and backed by a 5-year warranty on the leading screen products. We are committed to sustainable design with GREENGUARD and GREENGUARD Gold Certified surfaces.

FIXED FRAMES

01 THICK BEZEL Cinema Contour[®]

The **Cinema Contour[®]** features a wider, more substantial frame as well as the latest technology in projection surfaces designed for 4K and Ultra HD to maximize the technology of your projector. The larger standard black frame gives the eye a point of reference and enhances contrast for film purists and aficionados.

02 THIN BEZEL UTB Contour

The **UTB Contour** has an ultra thin bezel frame and low profile. Designed to look like a large flat panel, the UTB Contour can more than double the size of the largest flat panel televisions available.

ELECTRIC SCREENS

01

CEILING RECESSED

Tensioned Advantage® With SightLine™

The Tensioned Advantage® ceiling recessed electric screen series is designed with ceiling trim in place, to conceal the rough opening eliminating the need to complete additional trim work once the screen is installed.

Its two-stage installation option affords the screen case to be installed during the rough-in construction stage, and the screen surface assembly during the finishing stage.

Sliding installation brackets allow mounting flexibility for easy attachment of the screen housing to the structure above the drop ceiling.

Da-Lite's cable drop feature, SightLine, available with Tensioned Advantage electric screen, gives the impression of a floating screen.

A suspension system in its single roller design features 3 or 4 thin cables eliminating the need for black drop – the black border above the projection screen. While the market is accustomed to specifying drop distance upon ordering, now vertical placement of the screen can be variable as the cables accommodate a range of drop distances up to 70" between the ceiling and the top of the screen – making ordering a snap. What's more, this feature creates usable space above the viewing area to preserve architectural interests and provides the opportunity for camera/speaker placement. Enhanced aesthetics, painless ordering, smooth installation and future proofing for height adjustability – this is the fine line between status quo and jaw drop.

WALL OR CEILING MOUNTED

Tensioned Contour®

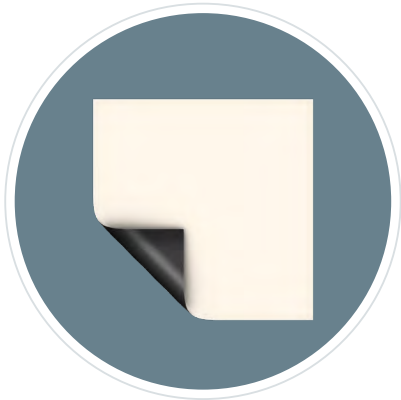

The Tensioned Contour® Electrol® is a ceiling or wall-mounted electric screen offering simple installation in a modern, curved case design.

SCREEN SURFACES

01

HD PROGRESSIVE 1.1
Half Angle: 85° | Gain: 1.1

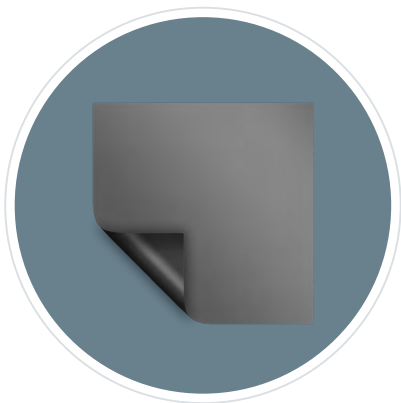

HD Progressive 1.1 is a front projection screen surface designed for high resolution up to 16K. Recommended for laser projectors with ultra-short, short, and standard throw lenses, its neutral white appearance provides brilliant image color and is available in sizes up to 16' high seamless. This premium surface is ideal for projects with edge blending and small and large venue projection needs. HD Progressive 1.1 can be cleaned with mild soap and water, is flame retardant and mildew resistant.

- Recommended for Edge Blending
- Large Venue
- Front Projection
- Recommended for Laser Projection
- Lens - Ultra Short Throw (UST) (0.4:1 or less)
- Lens - Short Throw (0.4-1.0:1)
- Lens - Standard Throw (1.0:1 or greater)

02

PARALLAX® STRATOS 1.0
Horizontal Half Angle: 30° | Vertical Half Angle: 30° | Ambient Light Rejection: 80%

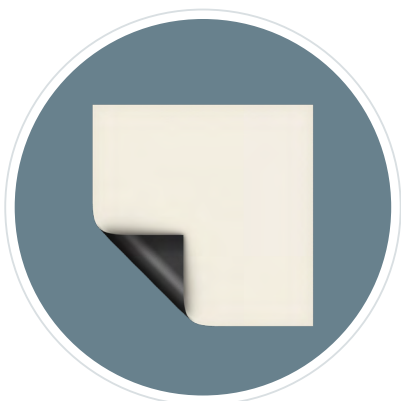

Parallax® Stratos 1.0 is a front projection screen surface designed for high resolution up to 4K. Suitable for laser projectors with standard throw lenses, its dark gray appearance enhances image color and contrast and is available in sizes up to 16' high seamless. This premium ambient light rejection (ALR) surface is ideal for projects with digital signage and large venue projection needs. Parallax Stratos 1.0 can be cleaned with mild soap and water and is mildew resistant.
